Introduction

OhioHealth is a nationally recognized, not-for-profit, system of faith-based hospitals and healthcare organizations serving 50 Ohio counties. All OhioHealth entities are connected by (a) a mission to “improve the health of those we serve”; (b) core values of compassion, excellence, stewardship, integrity, and inclusion; (c) cardinal value of “we honor the dignity and worth of each person”. OhioHealth’s vision is “to provide exceptional care for all through experiences that earn a lifetime of trust”. **Table 1** shows the 16 OhioHealth member hospitals that are in 12 Ohio counties and serves patients residing in 50 of the 88 counties in Ohio.

OhioHealth has been known nationally for its world-class healthcare services. OhioHealth has been recognized by Fortune as one of the “100 Best Companies to Work For” from 2007 – 2021”. (OhioHealth 2024). Great Place to Work® and PEOPLE magazine have honored OhioHealth as one of the 2021 PEOPLE Companies that Care® (OhioHealth 2024). In 2020, four OhioHealth hospitals, namely, Riverside Methodist Hospital, Grant Medical Center, Doctors Hospital and Dublin Methodist Hospital were named a 2020 LGBTQ Healthcare Equality Top Performer based on the 2020 Healthcare Equality Index (HEI) administered by the Human Rights Campaign (HRC). In 2020, OhioHealth was recognized as Great Place to Work – Certified™ based on the Great Place to Work® Trust Index™ survey.

In February 2021, the OhioHealth Inclusion Pledge was adopted throughout the health system. Each OhioHealth employee becomes a part of a culture that cares; one that supports one another; and honors the dignity and worth of each person. OhioHealth is committed to ensuring that the organization reflects the rich diversity of the communities we serve. We respect, embrace, and derive strength from the ways that we are similar and the ways that we are different.

OhioHealth is dedicated to serving communities through its community benefit. In Fiscal Year 2023, OhioHealth provided a total \$468 million in Community Benefit, including \$107.7 million in charity care, \$254.7 million in net cost of Medicaid programs, \$67.2 million in net cost of medical education, \$0.9 million in subsidized health services, \$10.8 million toward community health services, \$25.7 million in cash and in-kind contributions, and \$1 million for research.

OhioHealth Southeastern Medical Center is a 110-bed hospital that builds on the tradition of quality, people- and community-centered care, programs, services, education, and outreach in southeastern Ohio. Examples of quality services include but not limited to:

- **Comprehensive cancer care** – include preventive services, treatment, chemotherapy, immunotherapy, infusion services, radiation treatment, genetic counseling. In Guernsey County, the OhioHealth cancer programs and services are offered at the John W. and Edna McManus Shepard Cancer Center, 1455 Clark Street, Cambridge, Ohio 43725.
- **Emergency and trauma services** – The Southeastern Medical Center at 1341 Clark Street, Cambridge, Ohio 43725 offers top notch emergency and trauma care.
- **Heart and vascular services** – In Guernsey County, the OhioHealth Heart and Vascular care offers access to the (a) OhioHealth Physician Group Heart and Vascular Physicians; (b) OhioHealth Cardiac Rehabilitation; and (c) Cardiovascular and Pulmonary Laboratory. Examples of programs and services include but not limited to (a) cardiovascular disease management; (b) cardiac testing; (c) echocardiograms; (d) Holter monitoring; (e) cardiac rehabilitation; and (f) pulmonary rehabilitation.
- **Imaging and radiology** – In Guernsey County, the OhioHealth Imaging and Radiology offers (a) diagnostic imaging; (b) mammography; (c) nuclear medicine; (d) x-ray; (e) magnetic resonance imaging (MRI); (f) ultrasound; and (g) computed tomography (CT) scan.
- **Laboratory services** – patients can access the OhioHealth Laboratory Services with a provider’s order but without a need for an appointment.

- **Maternity services** – The OhioHealth obstetrics and gynecology providers at the Childbirth Center and outpatient clinics provide personalized and supportive care to women and their babies during the perinatal and postpartum period. The OhioHealth Childbirth Center is a Level 1 Perinatal Center, which provide referrals and transports for women with high-risk pregnancies and babies with serious conditions who need higher level of care.
- **Neuroscience services** – Southeastern Medical Center's neuroscience multidisciplinary team diagnoses neurological conditions involving the brain and spine using tools such as but not limited to: (a) computerized axial tomography; (b) electroencephalography (EEG); (c) electromyography (EMG); and (d) magnetic resonance imaging (MRI).
- **Orthopedics services** – Southeastern Medical Center's orthopedics (bone and joint) services are available at (a) OhioHealth WorkHealth Cambridge, which is located at 10095 Brick Church Road, Cambridge, Ohio 43725; and (b) OhioHealth Physician Group Orthopedics, which is located at 1230 Clark Street, Suite A, Cambridge, Ohio 43725.
- **Pain Management services** – provides patients with access to physical therapy, massage, cognitive and behavioral therapies. OhioHealth primary care physicians and providers refer patients to pain management care to improve the health and wellbeing of patients with chronic pain.
- **Podiatry** – provides patients with comprehensive foot and ankle care to treat or manage injuries or conditions, such as but not limited to bunions, wounds, flat feet, and warts. OhioHealth's podiatrists and their multidisciplinary team specializes in reconstructive and corrective surgery to ensure balance and functioning.
- **Primary Care** – OhioHealth Physician Group (OPG) Primary Care are available at (a) OPG Primary Care Cambridge, which is located at 1210 Clark Street, Cambridge, Ohio 43725; and (b) OPG Primary Care Caldwell, which is located at 18125 Woodsfield Road, Caldwell, Ohio 43724. Examples of primary care services include but are not limited to (a) care for routine illnesses and injuries and management of chronic health conditions; (b) alternative and integrative medicine; (c) comprehensive physical exams for all age groups; (d) yearly health screenings; (e) pre-operative evaluation and medical clearance for surgery; (f) infant care, pediatrics and adolescent medicine; (g) nutrition counseling; (h) weight management; and (i) care and treatment for urgent care needs such as sore throat, and sinus infections.
- **Rehabilitation and Therapy** – OhioHealth's Rehabilitation and Therapy Clinic provides orthopedic care for (a) broken bones; (b) joint injuries and dislocations; (c) muscle injuries; (d) sports injuries; (e) sprains and strains; (f) lacerations; and (g) worker's compensation first report of injury.
- **Sleep Disorders Clinic** – OhioHealth's multidisciplinary team diagnose and treat sleeping disorders such as (a) sleep apnea; (b) snoring; (c) narcolepsy; (d) restless legs syndrome; and (e) insomnia.
- **Sports Medicine** – OhioHealth provides care for athletes and active persons from all age groups. OhioHealth's Sports Medicine providers perform specialized treatments such as but not limited to (a) arthritis care; (b) castings; (c) concussion management; (d) conditions or injuries of the hand, wrist and forearm; (e) sports performance; and (f) tendon injuries.
- **Urology** – OhioHealth offers care for men and women to evaluate kidney and bladder functioning and conditions, including (a) kidney stones; (b) men's sexual and prostate health; (c) urinary incontinence; (d) urinary tract infections; and (e) magnetic resonance imaging fusion biopsy.
- **Wound care** – OhioHealth provides comprehensive services for (a) people with hard-to-heal wounds; (b) wounds of people with diabetes; and (c) various types of wounds. The team provides (a) wound assessment; (b) compression therapy; (c) debridement; (d) dressing changes; (e) infection prevention and management; (f) vascular surgical support; and (g) wound vacuum assisted closure (VAC) application.

OhioHealth Southeastern Medical Center received various awards and recognitions related to excellent quality of patient care and use of technology to further improve patient care services.

- a. **Accreditation by The Joint Commission** – The OhioHealth Southeastern Medical Center received accreditation from The Joint Commission as a “hospital” (The Joint Commission, 2024). The Southeastern Medical Center is located at 1341 Clark Street, Cambridge, Ohio 43725. The OhioHealth Southeastern Medical Center’s additional sites has also been accredited, including outpatient clinics at (a) 1205 Clark Street, Cambridge, Ohio 43725; (b) 10095 Brick Church Road, Cambridge, Ohio 43725; (c) Cancer Center that is located at 1455 Clark Street, Cambridge, Ohio 43725; (d) Caldwell Physical Therapy and Rehabilitation that is located at 18125 Woodsfield Road, Suite A, Caldwell, Ohio 43724; (e) OhioHealth Pain Management that is located at 1210 Neal Drive, Cambridge, Ohio 43725; (f) Muskingum Valley Health Center Imaging Services that is located at 1330 Clark Street, Cambridge, Ohio 43725; and (g) Pediatric Rehabilitation Center that is located at 1410 Clark Street, Cambridge, Ohio 43725.
- b. **Certification by the American College of Surgeons Commission on Cancer** – OhioHealth Southeastern Medical Center is certified as a Community Cancer Program (American College of Surgeons, 1996-2024).
- c. **American College of Radiology™ Accreditation** – OhioHealth Southeastern Medical Center’s radiology accreditation include breast ultrasound; stereo radiography; positron emission tomography (PET); and mammography (American College of Radiology™, n.d.).

The Patient Protection and Affordable Care Act of 2010 requires not-for-profit hospitals to conduct a community health needs assessment once every three years (Internal Revenue Service, 2024). OhioHealth Southeastern Medical Center hosted the public health meeting on August 14, 2024, to identify and prioritize the significant health needs in Guernsey County and determine the Hospital’s alignment with Ohio’s 2020-2022 State Health Improvement Plan (SHIP). OhioHealth Southeastern Medical Center developed the Fiscal Year 2026–2028 Implementation Strategy in collaboration with the Cambridge Guernsey County Health Department and various community stakeholders. OhioHealth’s strong and sustainable partnerships demonstrate continuing commitment to play active and effective roles in the Guernsey County community by fulfilling OhioHealth’s mission of “to improve the health of those we serve.” Moreover, OhioHealth Southeastern Medical Center’s Implementation Strategy will include actions and strategies that align with the Ohio 2020–2022 State Health Improvement Plan (Ohio Department of Health, n.d.).

Van Wert County	OhioHealth Van Wert Hospital	1250 S Washington Street, Van Wert, Ohio 45891

A. Definition of the Community Served by the Hospital Facility

A – 1. Location of hospitals and ZIP codes of communities served.

OhioHealth Southeastern Medical Center I is located at 1341 Clark Street, Cambridge, Ohio 43725. The “community served” by the OhioHealth Southeastern Medical Center is Guernsey County, Ohio based on the percent of patients served from Guernsey County. See **Section A – 2**. The communities reside in zip codes 43722, 43723, 43725, 43732, 43733, 43736, 43749, 43750, 43755, 43768, 43772, 43773, 43778, and 43780 (Datasheer, LLC, 2003-2024).

A – 2. Percent of patients served by OhioHealth Southeastern Medical Center from Guernsey County, Ohio.

Table 2 shows the percent of inpatients, outpatients, Emergency Department, observation, surgeries, and births from Guernsey County residents during Fiscal Year 2022 (7/1/2021 to 6/30/2022) and Fiscal Year 2023 (7/1/2022 to 6/30/2023). On average, patients from Guernsey County comprised 68.96% and 69.01%, respectively, of patients served by OhioHealth Southeastern Medical Center in Fiscal Years 2022 and 2023. These data demonstrated that Guernsey County is the “community served” by the OhioHealth Southeastern Medical Center.

Table 2. Summary of percent of patients served by the OhioHealth Southeastern Medical Center who reside in Guernsey County, Ohio.

Health Care Setting	Fiscal Year 2022	Fiscal Year 2023
Inpatients	69.79%	69.66%
Outpatient Visits (excluding observation)	75.25%	74.26%
Emergency Department	75.76%	75.99%
Observation	71.25%	71.92%
Surgeries	67.33%	63.70%
Births	54.38%	58.51%
Average	68.96%	69.01%

B. Demographics of the Community

B – 1. Total Guernsey County population (Ohio Department of Development, 2024)

In 2020, the actual population in Guernsey County was 38,438. In 2023, the estimated total population in Guernsey County was 38,089.

B – 2. Race and ethnicity breakdown of Guernsey County population (Ohio Department of Development, 2024)

- White – 94%
- African American or Black – 1.9%
- Two or More Races – 2.8%
- Hispanic (may be of any race) – 1.2%
- Asian – 0.4%
- Other – 0.9%
- Pacific Islander – 0%
- Native American – 0.1%
- Total minority population – 6.7%

B – 3. Age breakdown of Guernsey County population (Ohio Department of Development, 2024)

- Under 5 years – 5.8%
- 5 to 17 years – 16.2%
- 18 to 24 years – 8%
- 25 to 44 years – 23.1%
- 45 to 64 years – 27.1%
- 65 years and more – 19.8%

The median age in Guernsey County is 42.6 years.

B – 4. Income of Guernsey County population (Ohio Department of Development, 2024)

- Median household income – \$53,901.00
- Per capita personal income – \$47,686.00
- Families with income below poverty level – 13.1 %
- Individuals with income below poverty level – 17%

C. Existing Healthcare Facilities and Resources within the Community That Are Available to Respond to the Health Needs of the Community

C – 1. Healthcare Facilities and Community Resources Addressing Significant Health Needs Related to Mental Health and Addiction, Access to Care, and Social Determinants of Health.

- C – 1.1. OhioHealth’s Behavioral Health Services** – OhioHealth offers inpatient, outpatient, and behavioral health resources (OhioHealth, 2015-2024). Services include (a) inpatient care, (b) electroconvulsive therapy (ECT), (c) psychiatric emergency services, and (d) inpatient consultation/liaison services (OhioHealth, 2015-2024).

The **OhioHealth Inpatient Behavioral Health Services** are available at three locations, namely:

- **OhioHealth Mansfield Hospital Behavioral Health** – located at 335 Glessner Avenue, Mansfield, Ohio 44903. Services include intensive outpatient program and Employee Assistance Program (OhioHealth, 2015-2024).
- **OhioHealth Marion General Hospital Behavioral Health** – located at 1000 McKinley Park Drive, Marion, Ohio 43302.
- **OhioHealth Riverside Methodist Hospital Behavioral Health** – located at 3535 Olentangy River Road, Columbus, Ohio 43214.

The **OhioHealth Outpatient Behavioral Health Services** offers (a) Partial Hospitalization Program (PHP); (b) Intensive Outpatient Program (IOP); (c) Behavioral Health Outpatient Consultation/Transition Services; (d) Mindfulness-Based Stress Reduction Program (MBSR); and (e) Transcranial Magnetic Stimulation (TMS) (OhioHealth 2015-2024).

- **OhioHealth Outpatient Behavioral Health Offices Central Ohio** – located at 3820 Olentangy River Road, Columbus, Ohio 43214.
- **OhioHealth Physician Group Behavioral Health** – located at 5141 West Broad Street, Suite 115, Columbus, Ohio 43228.
- **OhioHealth Physician Group Behavioral Health Columbus Dublin Granville Road** – located at 5150 E. Dublin Granville Road, Suite 250, Columbus, Ohio 43081.
- **OhioHealth Physician Group Behavioral Health Columbus West Lane Avenue Suite 230** – located at 1480 West Lane Avenue, Suite 230, Columbus, Ohio 43211.
- **OhioHealth Physician Group Behavioral Health Marion** – located at 990 S. Prospect Street, Suite 3, Marion, Ohio 43302.

- C – 1.2. OhioHealth Physician Group (OPG) Primary Care Clinics** – provides care for children, adolescents, adults, and older adults who presents with common mental health problems such as depression, anxiety, and other mood disorders.
- **OPG Primary Care at Cambridge** – located at 1210 Clark Street, Cambridge, Ohio 43725
 - **OPG Primary Care at Caldwell** – located at 18125 Woodsfield Road, Caldwell, Ohio 43724
- C – 1.3. Muskingum Valley Health Center** – has a Behavioral Health service line that provides care through in-person or telehealth.
- **The Behavioral Health Team** – comprised of psychiatrists, licensed independent social workers, licensed social workers, psychiatric mental health nurse practitioners, and licensed professional clinical counselors. The Team takes care of patients with mental health challenges.
 - **The Substance Abuse Team** – comprised of advanced practice nurses, social workers, drug and alcohol counselors and psychiatrist. The Team serves individual patients and pregnant women who has opiate disorders, drugs and alcohol and substance abuse challenges.
 - + **Outpatient counseling** – include drug and alcohol assessments; access to psychiatry, individualized counseling.
 - + **Outpatient withdrawal symptom management** – prescribes medications to manage anxiety, restless legs syndrome, and gastro-intestinal disorders.
 - + **Linkage and referral to higher levels of care** – transition of care to residential treatment programs and acute medical management programs.
 - **Social Determinants of Health Team** – comprised of social workers and case workers that provide one-on-one coaching to address social determinants, linkage and referral to community resources that aid persons related to transportation, housing, food, finances, application assistance to Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance to Needy Families (TANF); and referrals to legal services and other social determinants-related support services.

- C – 1.4. Muskingum Area ADAMH Board – The** Mental Health and recovery Services Board serving Coshocton, Guernsey, Morgan, Muskingum, Noble, and Perry Counties’ (also known as Muskingum Area ADAMH Board) vision is “Our communities will be mentally healthy and addiction free.” The Board’s mission is “to distribute federal, state and local funding to community providers in response to community need and in a way that facilitates the existence of and access to high quality mental health and substance use recovery services in the six counties.”

The ADAMH Board has contract agencies based in Guernsey County. Examples of contract agencies include:

- **Forensic Diagnostic Center of District 9** – located at 1109 Clark Street, Cambridge, Ohio 43725. Examples of functions of Forensic Diagnostic Center of District Nine, Inc. (Ohio Forensic Centers Consortium, 2023) include but not limited to:
 - + Provides court-ordered forensic evaluations for courts within east-central and southeastern Ohio.
 - + Conducts Competency to Stand Trial Evaluations.
 - + Sanity evaluations.
 - + “Not Guilty by Reason of Insanity (NGRI) Evaluations.
 - + Juvenile Competency Evaluations.
 - + Transfer of Jurisdiction from Juvenile to Adult Court.
 - + Mental condition Evaluations.
 - + Second Opinion Evaluations- Level V.
 - + Conditional Release of Ohio Department of Mental Health forensic patients.
 - + Forensic Monitoring Services.
 - + Serves as a liaison between community treatment providers and the Court system.
 - + Outpatient Competency Restoration Program for 20 rural Ohio counties.
 - + Consultation to mental health programs serving criminal justice clients.
 - + Consults to criminal justice programs serving persons with mental health problems.
 - + Educational sessions regarding forensic issues.

- **Hickory Behavioral Network of Ohio** – located at 66755 State Street, Cambridge, Ohio 43725. The Hickory Behavioral Network of Ohio is an 80-bed acute inpatient psychiatric center and offers 24/7 admission and stabilization for patients (Hickory Recovery Network, 2024). The facility caters to the psychiatric needs of adult and older adults. The Hickory Behavioral Network of Ohio provides individualized treatment.

- + People having thoughts or threats to harm others and self.
- + People having suicidal ideations.
- + Severe depression and anxiety.
- + Bipolar disorder.
- + Psychosis.
- + Medication adjustment.
- + Acute or severe behavior changes.
- + Post-Traumatic Stress Disorder.
- + Delusions.
- + Paranoia.
- + Cognitive impairment and mental health crisis among older adults.
- + Uncontrolled use of alcohol, prescription drugs, and other illegal substances.

- **Allwell Behavioral Health Services** – The Guernsey Counseling Center is located at 2500 John Glenn Highway, Cambridge, Ohio 43725. The Noble Counseling Center Marietta Road office is located at 44020 Marietta Road, Caldwell, Ohio 43724. See Allwell Behavioral Health Services (2024) for details of programs and services.

- + **Crisis Services** – available 24 hours a day, 7 days a week (24/7), 365 days a year. The crisis services at Allwell's offices, area emergency departments, schools, and legal facilities.

The **Crisis Stabilization Unit** is an 8-bed Crisis Stabilization Unit is a short-term alternative to hospitalization. The Crisis Stabilization Unit serves 18 years and above who have psychiatric illnesses or emotional challenges. Allwell services include psychiatric and nursing consultations, case management, and individualized therapy.

The **Crisis and Suicide Hotline** enables assistance 24 hours a day, 7 days a week, 365 days a year to adults, children, and adolescents. The 24-hour Crisis Hotline helps people undergoing emotional crisis. The Allwell team will determine if a client needs professional consults, and linkage and referral to community services.

The Crisis Services serve Coshocton, Guernsey, Morgan, Muskingum, Noble and Perry Counties.

- + **Mobile Family Crisis Services (MRSS)** – crisis stabilization services to youth under age 21 and their families who are facing challenges or distress that hinders their ability to function at their home, school or in the community. The MRSS aims to reduce persons going to jail, getting hospitalized, and out-of-home placements. The team provides crisis intervention, de-escalation, and safety assessment. Youth and their families provide family support, family education, and community linkage for 4 to 6 weeks.

- + **Counseling and Therapy** – provides individual, marital, group or substance abuse therapy to assist with thinking clearly, feeling better, decision making, and relating more effectively with others. Allwell's clinicians assess, diagnose, treat and make referrals to supportive services to accommodate collaborative care.

Allwell also provide Employee Assistance Programs for employees so they could perform better at work by resolving problems related to substance abuse or emotions. Allwell uses treatment models such as but not limited to grief counseling; anger management; child counseling; Cognitive Behavioral Therapy (CBT), Dialectical Behavioral Therapy (DBT); marriage counseling; family counseling; Treatment models are customized to the needs of the patients.

- + **Primary care services** – primary care providers are integrated with mental and behavioral health services to more effectively tackle holistic care of physical and mental health needs.
- + **Psychiatric medication management** – The team of psychiatrists, nurse practitioners, and social workers evaluate patient's progress toward the therapeutic treatment, prescribe medications when necessary, and closely monitor treatment effectiveness and efficacy. Allwell's medication management team will collaborate with the patient's therapist and case manager to ensure effective treatment regimens and enable the patient to reach their wellness goals.
- + **Case management** – The Allwell case managers ensure that the patient is able to thrive in the community and access the necessary support and community resources. The case manager coaches the patient in building and mastering coping skills, relationship building, and other daily activities.
- + **Psychiatric diagnostic evaluation** – focuses on mental and behavioral health issues to prioritize specific issues the patient is facing and how these challenges affect the person's daily activities. The clinicians will assess condition of relationships, work, stress, family background, traumatic experiences. Once the diagnostic evaluation is complete, the clinical team will talk about treatment options and other necessary linkage or referrals to ensure effective treatment process.
- + **School-based services** – Allwell serves local schools to provide prevention and direct clinical services. Licensed providers are assigned to each school to serve the needs of students, teachers, and families. Additionally, they provide community education, agency consultation, and emergency services.
- + **Community linkages** – patients are linked or referred to community agencies related to healthcare, social services, legal assistance, financial assistance, and access to services of the Guernsey County Department of Job and Family Services.
- + **Consults, education, and prevention programming** – Allwell fights the stigma of behavioral health problems; raise awareness of mental health issues through community education, consults and prevention strategies. These outreach services are implemented in health fairs, community events, consults with teachers, first responders, and social service agencies.

- + **Drop-In centers to promote social skills** – consumers who feel alone or stressed may come to drop-in to centers, meet new friends and become sociable in a safe, non-judgmental environment. There is a small monthly fee to participate in activities Monday to Thursday. People may join weekly support groups, which are led by Certified Peer Support staff.
- + **FIRST Episode** – is a coordinated specialty care program for persons with first psychotic illness. For example, people with schizophrenia or schizoaffective disorder who have lost with reality have better chances of recovery through early treatment.

Allwell offers personalized treatment program, including (a) coordination of Individual Resiliency Training; (b) psychiatric care; (c) Supported Employment and Education; (d) Family Education and Support; and Case Management Services.
- + **Group Therapy** – includes Day Treatment and Partial Hospitalization. The session is held for three hours. The group therapies are led by trained therapists who motivates participants to face challenges, engage in their treatment, and make necessary lifestyle changes.
- + **Guardianship** – The program supports the emotional, social, and physical wellbeing of adults. Guardians advocate for the rights of individuals with disability that causes incompetency. Examples of mental incapacity include people suffering from severe mental illness; acquired brain injury; intellectual disability; conditions associated with old age; conditions related to stroke, chronic intoxication, and dementia.
- + **Housing and supported housing** – Allwell provides community housing services assist with paying rent for mentally disabled adults who lives in private rental housing or community group and boarding homes. People who turned 18 who lives in transitional housing are eligible for supportive housing.
- + **Peer recovery support services** – Allwell values the importance of peer support since participants are able to share experiences related to managing life situation.
- **Guernsey County Department of Job and Family Services** – administers public assistance; Child Support Enforcement Agency, OhioMeansJobs; and social services to Guernsey County residents.
 - + **Public assistance** – helps needy Guernsey County residents obtain access to food and health care coverage. The Public Assistance provides a safety net for families in immediate crisis. The Public Assistance Division establishes eligibility for programs that aims to establish self-sufficiency. People receiving public assistance benefits must work or get involved in allowable activities up to 40 hours per week. Activities for people who avails of public assistance may include (a) job search/job readiness classes; (b) unpaid work experience; (c) job skills training; (d) vocational training; (e) GED classes; and (f) college.
 - **Access to Food Assistance program** – also called Supplemental Nutrition Assistance Program (SNAP). SNAP helps poor individuals and families have access to food. The United States Department of Agriculture coordinates SNAP benefits that enables purchase food and grocery items. Eligibility to SNAP is based on federal guidelines, income, allowable expenses such as rent/mortgage, utility bills, childcare, and child support, household size, and resources.

- **Access to Medicaid health care coverage**— serves low-income families and children and Aged Blind or have a Disability (ABD) (Ohio Department of Medicaid, n.d.).
- + **Child Support Enforcement Agency (CSEA)** – ensures that children receive the appropriate financial support they deserve. The CSEA partners with County, State, and Federal agencies, parents, legislators, judges, healthcare team, advocacy groups, and employers.
- + **OhioMeansJobs Guernsey County** – serves businesses, job seekers, and workforce. The functions of OhioMeansJobs Guernsey County include:
 - Skills improvement among the workforce.
 - Help businesses with the needs of the workforce.
 - Help people seeking jobs achieve their job goals.
 - Improve self-sufficiency among people receiving public assistance.
 - Provide access to learning and job information.
 - Collaborate with community partners to ensure quality services.
 - Offer the Career Advancement Program through the Comprehensive Case Management and Employment Program (CCMEP) to ensure continuing education and training.
- + **Social services** –
 - **Adult Protective Services (APS)** – safeguard for older adults in Guernsey County. The mission of APS is to protect persons aged 60 and older from abuse, neglect, exploitation. APS services may include (a) casework services; (b) referral for medical services; (c) access to mental health services; (d) access to legal services; (e) money management; (f) access to home health care; (g) homemaker services; (h) housing-related services; (i) access to guardianship services; and (j) referral for food, clothing, and shelter.
 - **Fraud Investigation Unit** – enables reporting of fraud, waste, and abuse within the Guernsey County Department of Job and Family Services. Example of fraud may include: (a) hiding of one's employment while receiving benefits; (b) failure to report income from child support, Social Security, unemployment compensation; (c) receive benefit for a child not under one's care; (d) conceals marriage or assets of spouse; (e) fails to report a parent or legal guardian of a child residing in the home; (f) food stamp trafficking; (g) lives outside Guernsey County but receives benefits from the Guernsey County Job and Family Services; and (h) fails to notify Guernsey County Job and Family Services of the death of a case member and continues to receive and utilize the benefits of the deceased.

- **Financial Assistance** – The Ohio Works First (OWF) is a federally funded program and part of Ohio's Temporary Assistance to Needy Families (TANF). The Ohio Works First (OWF) gives monthly, time-limited cash assistance to financially eligible families. OWF focuses on job opportunities, obtaining training and experience as a way of attaining self-sufficiency. Cash assistance is provided up to 36 months for low-income families. Cash assistance is available for children less than age 19 and pregnant women in their third trimester.

The Ohio's Disability Financial Assistance program is a safety net for needy individuals who are eligible for the Disability Financial Assistance (DFA) which is coordinated by the Disability Determination Unit.

C – 1.5. Guernsey County Board of Developmental Disabilities – As part of its many programs and services to support people with disabilities in Guernsey County, Ohio, Guernsey County Board of Developmental Disabilities provides access to mental and behavioral health services as part of its comprehensive services. Examples of programs and services that may directly or indirectly address mental and behavioral health of people with disabilities in Guernsey County include:

- **Early childhood services for people with disabilities birth to age 6** – offers family centered programs for children from birth to age 3. Health and developmental services are provided so children are able to start school ready.
 - + Service coordination and evaluations for children.
 - + Early identification of children with developmental delays.
 - + Information, guidance and links to treatment and therapies.
- **School Age Services for people with disabilities age 6 to 16** – most of the services needed are provided by the Guernsey School's support services. Education for people with disabilities includes other complementary services such as speech therapy, occupational therapy, physical therapy, psychological counseling, and medical care. The Family Support Services may also help children with disabilities and their families with access to equipment, modifications of the home, developmental items and therapies that are not covered by insurance. The Service and Support Administrator (SSA) serves school aged children with disabilities through linkage with the following services:
 - + Mental health services.
 - + Behavioral health services.
 - + Recreational activities.
 - + Respite care.
 - + Summer camps.
- **Transition Services for people with disabilities age 16 to 22** – The Service and Support Administrator (SSA) supports persons with disability and their respective families with developing skills for self-determination, preference for housing, education after high school, and development of job skills. The SSA ensures linkage and connection with Partnerships with Opportunities for Ohioans with Disabilities (State of Ohio, n.d.).

- **Adulthood Services for people with disabilities age 22 and up** – The Service and Support Administrator (SSA) focuses on the person's independence by assessing needs and setting goals to live well. The interventions focus on aging and retirement. Examples of services include:
 - + Home-maker personal care.
 - + Adult day services.
 - + Vocational habilitation services.
 - + Transportation.
 - + Personal care.
 - + Community inclusion.
 - + Training in self-determination.
 - + Health and wellness activities.
 - + Employment services.
 - + Vocational services.
 - + Transportation services.
- **Adult Services for people with disabilities 65 and up** – The Service and Support Administrator (SSA) focuses on helping people with disabilities with awareness and engagement related to aging and retirement. Assistance is provided on the following:
 - + Retirement needs.
 - + Nursing home screenings.
 - + Do Not Resuscitate (DNR) orders.
 - + Burial plans.
 - + **Habilitation services** – includes centralized services by certified providers that will guide and support persons with disabilities about socialization programs, volunteering programs, and health and wellness activities.
 - + **Residential services** – The Service and Support Administrator (SSA) will assist with in-home and remote supports; shared living; group homes; and intermediate care facilities.

- **Access and education about community resources** – The Guernsey County Board of Developmental Disabilities provides comprehensive list of community resources to meet specific needs of people with disabilities who reside in Guernsey County. Examples of information about resources include but not limited to:
 - + Camps.
 - + Respite services.
 - + Schools.
 - + Behavioral services.
 - + Autism schools and scholarship.
 - + Diagnoses-related information.
 - + Adaptive/Sensory information.
 - + Medical programs and services.
 - + Counseling services.
 - + Guernsey County services.

C – 2. Healthcare Facilities and Community Resources Addressing Significant Health Needs Related to Chronic Disease, Access to Care, and Social Determinants of Health.

- C – 2.1. OhioHealth Southeastern Medical Center Cancer Care** – cancer services are provided at the John W. and Edna McManus Shepard Cancer Center, 1452 Clark Street, Cambridge, Ohio 43725. The OhioHealth Cancer Care offers comprehensive care from preventive screenings to treatment, chemotherapy, and immunotherapy.
- Infusion services
 - Radiation treatment and radiology physicians
 - Genetic counseling
- C – 2.2. OhioHealth Southeastern Medical Center Emergency and Trauma Care** – located at 1341 Clark Street, Cambridge, Ohio 43725.
- C – 2.3. OhioHealth Heart and Vascular Care** – The OhioHealth Physician Group Heart and Vascular is located at 1325 Clark Street, Cambridge, Ohio 43725. The OhioHealth Cardiac Rehabilitation is located at 1341 Clark Street, Cambridge, Ohio 43725. The OhioHealth Cardiovascular and Pulmonary Laboratory is located at 1341 Clark Street, Cambridge, Ohio 43725.
- Cardiovascular disease management.
 - Cardiac testing, including echocardiograms and Holter monitoring.
 - Cardiac and pulmonary rehabilitation.
- C – 2.4. OhioHealth Southeastern Medical Center Imaging and Radiology** – located at 1341 Clark Street, Cambridge, Ohio 43725. The following services are available to patients:
- X-ray.
 - Magnetic resonance imaging (MRI).
 - Mammograms.
 - Ultrasound.
 - Computed tomography scan (CT).
 - Nuclear medicine.
- C – 2.5. OhioHealth Southeastern Medical Center Laboratory Services** – located at 1341 Clark Street, Cambridge, Ohio 43725. A doctor's order is required to avail of the OhioHealth laboratory services.
- C – 2.6. OhioHealth Southeastern Medical Center Maternity Care (Childbirth Center)** – During the perinatal period, the obstetrician/gynecologist and other advanced practice providers ensure that the mother and baby receive personalized care, comfort, security, and education. The Childbirth Center at Southeastern Medical Center is a Level 1 Perinatal Center, we provide referrals and transports for women with high-risk pregnancies and babies born with serious conditions who requires higher level of care.

- C – 2.7. OhioHealth Southeastern Medical Center Neuroscience** – physicians and providers are experts in treating patients with brain and spine conditions. The OhioHealth Southeastern Medical Center Neuroscience Clinics are located at 1201 Neal Avenue, Cambridge, Ohio 43725. Patients have access to the following services:
- Computerized axial tomography
 - Electroencephalography (EEG)
 - Electromyography (EMG)
 - Magnetic Resonance Imaging (MRI)
- C – 2.8. OhioHealth Physician Group Orthopedics** – treats orthopedic injuries and conditions. OhioHealth's orthopedic surgeons repair complex fractures, perform joint replacements; reconstruct injured limbs. The surgery team collaborates with the rehabilitation and physical therapy teams to ensure successful path to recovery. The OhioHealth Physician Group Orthopedic Surgery is located at 1230 Clark Street Suite A, Cambridge, Ohio 43725. Examples of orthopedic services include:
- Shoulder, hip, knee, ankle, hand, and wrist care.
 - Non-surgical procedures.
 - Minimally invasive, arthroscopic joint repair.
 - Total knee, shoulder, and hip replacements.
 - Orthopedic trauma fracture care.
- C – 2.9. OhioHealth Southeastern Medical Center Pain Management** – located at 1341 Clark Street, Cambridge, Ohio 43725. The OhioHealth Pain Management treats chronic pain through physical therapy, massage, cognitive and behavioral therapies. Patients need referral to a pain management specialist.
- C – 2.10. OhioHealth Physician Group Podiatric Surgery** – provides comprehensive care and diagnosis for foot and ankle injuries or conditions, including bunions, diabetic or nonhealing wounds, infections, flat feet, and warts. The OhioHealth team also specializes in reconstructive surgery and deformity correction so patients can get back on their feet.

C – 2.11. OhioHealth Physician Group Primary Care – The OhioHealth Physician Group Primary Care Cambridge is located at 1210 Clark Street, Cambridge, Ohio 43725. The OhioHealth Physician Group Primary Care Caldwell is located at 18125 Woodsfield Road, Caldwell, Ohio 43724. The OhioHealth Physician Group Primary Care offers reliable, convenient care for everything from minor illnesses and injuries to the routine management of chronic health conditions like diabetes or asthma. Examples of programs and services include:

- Prevention, wellness and illness care and management of chronic diseases and conditions.
- Alternative medicine and integrated medicine.
- Comprehensive physical examinations for all ages.
- Annual health screening exams.
- Pre-operative evaluation and medical clearance for surgery.
- Infant care, pediatrics, and adolescent medicine.
- Nutrition counseling.
- Weight management.
- Care for urgent needs such as sore throat, sinus infections, and other minor ailments.

C – 2.12. OhioHealth Southeastern Medical Center Rehabilitation and Therapy – located at 10095 Brick Church Road, Cambridge, Ohio 43725–. The OhioHealth **Southeastern Medical Center team provides care for emergency injuries such as but not limited to:**

- Broken bones
- Joint injuries and dislocations
- Muscle injuries
- Sports injuries
- Sprains and strains
- Lacerations
- Worker's compensation first report of injury

C – 2.13. OhioHealth Southeastern Medical Center Sleep Disorders Laboratory – located at 1341 Clark Street, Cambridge, Ohio 43725. The OhioHealth Southeastern Medical Center Sleep Disorders Laboratory is equipped with state-of-the-art technology and medical instruments to conduct sleep evaluation studies and diagnose sleep disorders. The OhioHealth Sleep Medicine Board-Certified Physician supervises the OhioHealth Sleep Disorders laboratory. Examples of conditions include:

- Sleep apnea (abnormal patterns in breathing while sleeping).
- Snoring.
- Narcolepsy (extreme sleepiness during the day and falling asleep suddenly at daytime).
- Restless Legs Syndrome (RLS), manifested by urge to move the legs while you try to fall asleep.
- Insomnia.

C– 2.14. OhioHealth Physician Group Sports Medicine and Rehabilitation – The Cambridge, Ohio Sports Medicine and Rehabilitation Clinic is located at 10095 Brick Church Road, Cambridge, Ohio 43725. The Caldwell, Ohio Sports Medicine and Rehabilitation Clinic is located at 18125 Woodsfield Road, Caldwell, Ohio 43724.

Examples of treatments provided include:

- Arthritis care.
- Castings.
- Concussion management.
- Conditions of the hand, wrist, and forearm.
- Sports performance.
- Tendon Injuries, advanced treatment, and prevention.
- Athletic Training programs such as Life Enhancement Activity Program (LEAP); Performance Enhancement program (PEP), and Physical Activity Link Under Licensed Supervision (PLUS).

C – 2.15. OhioHealth Southeastern Medical Center Urology – located at 1200 Clark Street, Cambridge, Ohio 43725. Examples of conditions and diseases treated include:

- Kidney stones.
- Men's sexual and prostate health.
- Benign or malignant cancers of the kidneys and bladder.
- Urinary incontinence.
- Urinary tract infections.
- Magnetic resonance imaging (MRI) fusion biopsy.

C – 2.16. OhioHealth Southeastern Medical Center Wound Care – located at 1341 Clark Street, Cambridge, Ohio 43725. The Wound Care Department serves patients with hard-to-heal wounds, specialized care, and education for patients with diabetes. Examples of programs and services include:

- Wound assessment.
- Compression therapy.
- Debridement.
- Dressing changes.
- Infection Management.
- Vascular surgical support.
- Wound vacuum assisted closure (VAC) application.

C – 2.17. Cambridge-Guernsey County Health Department – located at 326 Highland Ave, Cambridge, OH 43725. The Health Department's Nursing Services has various programs and services and community collaborations that address chronic diseases, access to care, and social determinants of health. The Cambridge-Guernsey County Health Department offers Guernsey County residents with access to "Bridges to Wellness", a program that identifies resources in the community that could address access to food, transportation, housing, financial security, and other social determinants of health. A community health worker or care coordinator visits people's homes and determine their social determinants of health needs and address them accordingly.

C – 2.18. Cambridge Area YMCA Family Center – located at 1301 Clairmont Avenue, Cambridge, Ohio 43725. The Cambridge Area YMCA Family Center focuses on youth development and healthy living (Cambridge Area YMCA Family Center, 2023). Examples of programs and services include:

- Personal training.
- Child-care.
- Yoga.
- Group exercise classes.
- Weight management.
- Youth sports.
- Swim lessons.
- Progressive gymnastics.
- Mommy, Daddy, and Me Programs (to sharpen minds and build strong bodies).
- Cheer and Tumbling programs.
- T-Ball/Coach Pitch.
- Basketball.
- Volleyball.
- Indoor soccer.
- Summer camps and clinics.
- Youth group exercise classes.
- Adult group exercise classes.
- SilverSneakers, Silver&Fit, and RenewActive.

C – 2.19. Area Agency on Aging Region 9 – offers older adults with access to the Senior Farmer's Market Nutrition Program (SFMNP), a program administered by the United States Department of Agriculture (USDA). In Ohio, USDA partners with the Ohio Department of Aging. The SFMNP gives \$50 benefit to low-income older adults so they could buy eligible, locally grown produce at participating farmers' markets. Participants of the SFMNP are age 60 and above who reside in the following Counties: Belmont, Carroll, Coshocton, Guernsey, Harrison, Holmes, Jefferson, Muskingum, or Tuscarawas County. The participants household income must be within 185% of the federal poverty level (Area Agency on Aging Region 9, Inc., 2023).

In Guernsey County, the participating Farmer's Market in the Senior Farmers Market Nutrition Program (SFMNP) include:

- **Old Washington Farmer's Market (roadside stand)** – located at Old Washington, Ohio 43768 (Ohio Farmers Market Network, 2024).
- **Route 40 Farmer's Market Cambridge** – located at 5843 Glenn Highway, Cambridge, Ohio 43725. Participating and authorized farms include Larrison's Farm and Snells Farm (Ohio Farmers Market Network, 2024).

C – 3. Healthcare Facilities and Community Resources Addressing Significant Health Needs Related to Maternal, Infant and Child Health, Access to Care, Social Determinants of Health, and Health Behaviors.

C – 3.1. OB/GYN Specialists of Southeast Ohio – located at 1230B Clark Street, Cambridge, Ohio 43725

C – 3.2. Muskingum Valley Health Center Cambridge – located at 1330 Clark Street, Cambridge, Ohio 43725. Services include but not limited to:

- Adult primary care
- Infant, child, and adolescent care
- Women's health and prenatal care
- Behavioral health
- Dental services
- Patient education
- On-site pharmacy
- Health insurance enrollment assistance
- Access to urgent care and pharmacy services

C – 3.3. OhioHealth Southeastern Medical Center Childbirth Center – offers family-centered care and parent-infant bonding, skin-to-skin contact, rooming-in services, and breastfeeding education. The Childbirth Center is comprised of the Labor and Delivery Unit and the Mother and Baby Unit. The Childbirth Center is a Level 1 Perinatal Center, which has the ability to refer and transport women with high-risk pregnancies. Additionally, babies born with serious conditions may be transported to higher level of care that is available at The Ohio State University Wexner Medical Center, Nationwide Children's Hospital, and Riverside Methodist Hospital, and tertiary centers at the Akron/Canton area,

C – 3.4. Help Me Grow Home Visiting Programs – offers pregnant women and postpartum women and their young children with home visiting services. Home visiting services are provided during prenatal care, Newborn to 3 months and 3 months to 3 years. In Guernsey County, the Help Me Grow program is coordinated by the Guernsey County Board of Developmental Disabilities, located at 60770 Southgate Road, Byesville, Ohio 43723.

- **Cambridge-Guernsey County Health Department** – provide home visiting services.
- **The Guernsey, Monroe, and Noble (GMN) Tri-County Community Action Commission** – home visiting services.

C – 3.5. Guernsey County Family and Children First Council – helps coordinate services for children and families by eliminating redundancies and consolidating resources for effective benefit.

- **Early Intervention** – provides coordinated services to parents of eligible children under age 3, with developmental delays. Young children perform their best in familiar settings.
- **Multi-System Youth** – includes children who require services from more than one agency. These youth need to avail of services from the Guernsey County Children Services, Guernsey County Board of Developmental Disabilities, agencies addressing mental health and addiction, juvenile justice system. Identified multi-system youth may need to be under the custody of the Guernsey County Children Services to ensure the best outcome.

- **Wrap-around approach** – engages children and youth with the highest levels of mental health needs.
- **Creative Options** – uses partnerships to support children from birth to age 21 with multiple needs. The Guernsey County Family and Children First Council assist in referring children to wraparound services and assisting with residential placement options.

C – 3.6. Cambridge-Guernsey County Health Department – will provide the universal nurse home visiting program through Family Connects International (Family Connects, n.d.). Families will have a nurse home visit within three weeks after they bring their family home. Every new mother and their family will have a nurse visit at their home to find out about their needs and connecting them to local agencies.

C – 4. Healthcare Facilities and Community Resources Addressing Significant Health Needs Related to Access to Care, Social Determinants of Health, and Health Behaviors.

- C – 4.1. OhioHealth Southeastern Medical Center** – located at 1341 Clark Street, Cambridge, Ohio 43725. The OhioHealth Southeastern Medical Center offers access to hospital-based services such as but not limited to:
- Emergency Department
 - Cardiac Rehabilitation Department
 - Childbirth Center
 - Cardiovascular and Pulmonary Laboratory
 - Dialysis Department
 - Endoscopy Department
 - Laboratory
 - Physical Therapy and Occupational Therapy Department
 - Palliative Care
 - Radiology/Diagnostic Imaging
 - Respiratory Therapy
 - Surgery
 - Wound Care
- C – 4.2. OhioHealth Southeastern Medical Center Sports Medicine and Rehabilitation Center** – located at 10095 Brick Church Road, Cambridge, Ohio 43725. This OhioHealth facility offers occupational therapy, physical therapy, and speech therapy.
- C – 4.3. OhioHealth Southeastern Medical Center Pain Management Clinic** – located at 1210 Neal Avenue, Cambridge, Ohio 43725. This OhioHealth facility offers evidenced-based care in managing chronic pain.
- C – 4.4. OhioHealth Southeastern Medical Center Cancer Center** – located at 1452 Clark Street, Cambridge, Ohio 43725. This OhioHealth Ambulatory Facility offers comprehensive cancer services.
- C – 4.5. OhioHealth Physician Group Pulmonology** – located at 1335 Clark Street, Cambridge, Ohio 43725. This OhioHealth Clinic offers pulmonology, critical, and sleep medicine care.
- C – 4.6. OhioHealth Physician Group Primary Care Cambridge** – located at 1210 Clark Street, Cambridge, Ohio 43725. This OhioHealth Primary Care Clinic in Cambridge, Ohio offers family practice services.
- C – 4.7. OhioHealth Physician Group Primary Care Caldwell** – located at 18125 Woodsfield Road, Caldwell, Ohio 43724. This OhioHealth Primary Care Clinic in Caldwell, Ohio offers family practice services.
- C – 4.8. OhioHealth Physician Group Podiatric Surgery (Foot and ankle)** – located at 1230 Clark Street Suite B, Cambridge, Ohio 43725.

- C – 4.9. OhioHealth Physician Group Sports Medicine** – located at 10095 Brick Church Road, Cambridge, Ohio 43725. This OhioHealth Ambulatory Facility provides comprehensive sports medicine programs and services.
- C – 4.10. OhioHealth Physician Group Heart and Vascular** – located at 1325 Clark Street, Cambridge, Ohio 43725. This OhioHealth Clinic provides comprehensive cardiovascular programs and services.
- C – 4.11. OhioHealth Physician Group General Surgery** – located at 1230 Clark Street Suite B, Cambridge, Ohio 43725. This OhioHealth Ambulatory Clinic provides comprehensive general surgical services.
- C – 4.12. Medical Associates of Cambridge, Inc.** – located at 1515 Maple Drive, Cambridge, Ohio 43725. Examples of the Clinic's programs and services include:
- **Annual wellness visit** – includes medical and history taking; medication review; measurement of biometrics such as height, weight, body mass index, blood pressure; depression and memory screening; safety and fall assessment; health maintenance and screening schedules; education and referral to education or preventive services.
 - **“Call Us First” program to assess need for Emergency Department visits** – patients are encouraged to call the Medical Associates of Cambridge to assist with deciding the need to go to the Emergency Department for conditions.
 - **Medical laboratory services** – conducts various laboratory tests onsite.
 - **Social services** – offers medical social work services, assessment of social determinants of health, and referral and linkage to community resources. Examples of social services provided include referral and linkage with agencies assisting with food, housing, transportation, finances, and legal needs.

D. How Data Was Obtained

OhioHealth Southeastern Medical Center collected the data from various sources as follows:

- D – 1.** The definition of the community served by OhioHealth Southeastern Medical Center was developed by determining the percent of patients who resided in Guernsey County during Fiscal Year 2022 and 2023, based on electronic medical records. See **Section A**.
- D – 2.** The demographic data of the Guernsey County population was obtained from the Ohio Department of Development (n.d.). See **Section B**.
- D – 3.** Pertinent health data from Ohio's 2019 State Health Assessment and the 2022 Online State Health Assessment (Ohio Department of Health, 2022.). See **Appendix A**.
- D – 4.** Pertinent health and health-related data for Guernsey County, Ohio versus State of Ohio, and United States (County Health Rankings, 2024; Ohio Department of Health, 2022); Ohio Department of Health (2023). See **Appendix B**.

No information gaps were identified that may impact the ability to assess health needs during the 2025 Community Health Needs Assessment process.

E. The Significant Health Needs of the Community

Prioritization of significant health needs in Guernsey County and the OhioHealth alignment with the SHIP was accomplished during the OhioHealth Southeastern Medical Center's virtual public meeting on 8/14/2024, 9:30 AM to 12:00 PM through Microsoft Teams. **Table 3** summarizes the prioritized significant health needs related to mental health and addiction, chronic disease, maternal, infant and child health, access to care, social determinants of health, and health behaviors.

Tables 4 to 8 lists the significant health needs in Guernsey County that were identified by the community stakeholders and their corresponding prioritization votes. The votes of community stakeholders related to OhioHealth Southeastern Medical Center's alignment with the 2020-2022 State Health Improvement Plan (SHIP) are also indicated.

Table 3. Summary of Guernsey County's priority health needs and alignment with Ohio's 2020-2022 State Health Improvement Plan (SHIP) that were determined by community stakeholders during the OhioHealth Southeastern Medical Center's virtual public meeting on 8/14/2024.

Guernsey County's Priority Health Needs	Details of Priority Health Needs	Alignment with Ohio's SHIP
Mental Health and Addiction (MHA)	<p>MHA – 1 Drug dependency and abuse, including diversity, equity, and inclusion.</p> <p>MHA – 2 Addressing mental health stigma among all age groups.</p> <p>MHA – 3 Mental health, including diversity, equity, and inclusion</p>	<p>Yes.</p> <p>Mental Health and Addiction is a priority health outcome in Ohio SHIP.</p>
Chronic Disease (CD)	<p>CD – 1 Cancer (kidney, lung, prostate, breast, colon, bone, skin, pancreatic, esophagus, throat, mouth) among adults and older adults.</p> <p>CD – 2 Type 1 and Type 2 diabetes among youth, adults, and older adults.</p> <p>CD – 3 Heart disease (heart attack, open heart surgeries) among adults and older adults.</p> <p>CD – 4 Obesity among youth, adults, and older adults</p>	<p>Yes.</p> <p>Chronic Disease is a priority health outcome in Ohio SHIP.</p>
Maternal, Infant and Child Health (MICH)	<p>MICH – 1 Mothers and babies born with addiction issues and lack of services to support them.</p> <p>MICH – 2 Infant mortality.</p> <p>MICH – 3 Mental health needs among children and mothers.</p> <p>MICH – 4 Postpartum care for mothers.</p>	<p>Yes.</p> <p>Maternal, Infant and Child Health is a priority health factor in Ohio SHIP.</p>

Continuation of Table 3. Summary of Guernsey County's priority health needs and alignment with Ohio's 2020-2022 State Health Improvement Plan (SHIP) that were determined by community stakeholders during the OhioHealth Southeastern Medical Center's virtual public meeting on 8/14/2024.

Guernsey County's Priority Health Needs	Details of Priority Health Needs	Alignment with Ohio's State Health Improvement Plan (SHIP)
Access to Care (AC)	<p>AC – 1 Lack of access to specialists (mental health, and other disease processes).</p> <p>AC – 2 Lack of prompt and reliable Emergency Medical Services to serve all age groups.</p> <p>AC – 3 Lack of primary care access for children.</p>	<p>Yes.</p> <p>Access to Care is a priority health factor in Ohio SHIP.</p>
Social Determinants of Health (SDH)	<p>SDH – 1 Lack of affordable and accessible housing for all, especially for seniors and people with disabilities of all ages.</p> <p>SDH – 2 Poverty.</p> <p>SDH – 3 High cost of living among older adults and families.</p>	<p>Yes.</p> <p>Social Determinants of Health (Community Conditions) is a priority health factor in Ohio SHIP.</p>
Health Behavior (HB)	<p>HB – 1 Poor diet, cultural eating habits, and malnutrition among all populations.</p> <p>HB – 2 Smoking and vaping among all populations.</p> <p>HB – 3 Sedentary lifestyle, low mobility, and lack of exercise among all populations.</p> <p>HB – 4 Availability of healthy activities among all populations</p>	<p>Yes.</p> <p>Health behavior is a priority factor in Ohio's SHIP</p>

Table 4. Summary of Guernsey County’s significant health needs related to mental health and addiction, and count of votes during the public meeting held on 8/14/2024, to prioritize the significant health needs and determine alignment with Ohio’s 2020-2022 State Health Improvement Plan (SHIP). The highlighted significant health needs were identified by community stakeholders as priority health needs in Guernsey County under mental health and addiction.

Significant Health Needs Category	Detail of Significant Health Needs	Prioritization Vote Count (out of 25 participants)	Vote Count for Alignment with SHIP (out of 25 participants)	Community Stakeholder Decision
Mental Health and Addiction (MHA)	MHA – 1 Drug dependency and abuse, including diversity, equity, and inclusion.	Yes = 15 votes No = 0 vote	Yes = 18 votes No = 0 vote	Stakeholders voted that MHA-1, MHA-2, and MHA-3 were the priority health needs in Guernsey County related to Mental Health and Addiction. Stakeholders voted that OhioHealth Southeastern Medical Center’s Fiscal Years 2026-2028 Implementation Strategy will align with SHIP related to Mental Health and Addiction.
Mental Health and Addiction (MHA)	MHA— 2 Addressing mental health stigma among all age groups.	Yes =14 votes No = 0 vote		
Mental Health and Addiction (MHA)	MHA— 3. Mental health, including diversity, equity, and inclusion.	Yes =12 votes No = 0 vote		

Continuation of Table 4. Summary of Guernsey County's significant health needs related to mental health and addiction, and count of votes during the public meeting held on 8/14/2024, to prioritize the significant health needs and determine alignment with Ohio's 2020-2022 State Health Improvement Plan (SHIP). These significant health needs were not selected by community stakeholders as priority health needs in Guernsey County.

Significant Health Needs Category	Detail of Significant Health Needs	Prioritization Vote Count (out of 25 participants)	Vote Count for Alignment with SHIP (out of 25 participants)	Community Stakeholder Decision
Mental Health and Addiction (MHA)	Depression	Yes = 0 vote No = 0 vote	Not applicable	This significant health need was <u>not</u> selected as a priority health need related to Mental Health and Addiction
Mental Health and Addiction (MHA)	Alcohol abuse	Yes = 1 vote No = 0 vote	Not applicable	This significant health need was <u>not</u> selected as a priority health need related to Mental Health and Addiction.

Table 5. Summary of Guernsey County’s significant health needs related to chronic disease, and count of votes during the public meeting held on 8/14/2024, to prioritize significant health needs and determine alignment with Ohio’s 2020-2022 State Health Improvement Plan (SHIP). The highlighted needs were identified as priority health needs in Guernsey County under chronic disease.

Health Behaviors	Stress among older adults.	Yes = 2 votes No = 0 vote	Not applicable	This significant health need was <u>not</u> selected as priority health needs related to Health Behaviors.
Health Behaviors	Loneliness/isolation among older adults.	Yes = 9 votes No = 0 vote	Not applicable	This significant health need was <u>not</u> selected as priority health needs related to Health Behaviors.

F. Primary and Chronic Disease Needs, and Other Health Issues of Uninsured Persons, Low-income Persons, and Minority Groups

Appendices A and B show the health and health-related data affecting the uninsured persons, low-income persons, and minority groups in Guernsey County in Ohio. Whenever available, comparable data for Ohio and United States.

G. The Process for Identifying and Prioritizing Community Health Needs and Services to Meet Community Health Needs

OhioHealth Southeastern Medical Center, in collaboration with OhioHealth External Affairs, conducted a virtual public meeting on August 14, 2024, 9:30 AM to 12:00 PM through Microsoft Teams. OhioHealth sought the community stakeholder inputs of significant health needs in Guernsey County from July 16 to August 14, 2024.

The stakeholders prioritized the significant health needs in Guernsey County based on the following criteria: (a) magnitude of the problem; (b) the availability of resources to address the need; and (c) ability for OhioHealth Southeastern Medical Center and the Guernsey County community to demonstrate outcomes and impact from interventions that will be developed to collaboratively address the priority health needs.

H. The Process for Consulting with Persons Representing the Community's Interests and Input Provided

Table 10 summarizes OhioHealth Southeastern Medical Center's processes for consulting with community stakeholders in Guernsey County. **Appendix C** lists the organizations and Guernsey County citizens that participated in the public meeting, including details on the following: (a) knowledge and skills in public health; (b) description of the medically underserved, low-income or minority populations represented by the organization; (c) inputs of community stakeholders; (d) time frame of inputs; (e) website of organization; (f) mission of organization; and (g) examples of the organization's programs and services.

Table 10. Summary of activities related to OhioHealth Southeastern Medical Center's seeking of public input on the priority health needs in Guernsey County.

Dates	Activities
July 16, 2024	<ul style="list-style-type: none"> Jeffrey R. Kasler, Director of the OhioHealth Government Relations sent an email invite to various Guernsey County stakeholders to attend a virtual public meeting to be held on August 14, 2024, 9:30 AM to 12:00 PM through Microsoft Teams. The purpose of the meeting was to prioritize the significant health needs in Guernsey County and determine the OhioHealth Southeastern Medical Center's alignment with Ohio's 2020-2022 State Health Improvement Plan (SHIP). The email invite included two data files: (a) Guernsey County Profile from the Ohio Department of Development, and (b) Health and Health-Related Data report for Ohio and Guernsey County that was created by Mary Ann G. Abiado, PhD, MSN, RN, Data Management and Evaluation Specialist and Community Health Nurse at OhioHealth, based upon publicly available data. The community stakeholders were requested to identify the significant health needs affecting Guernsey County based on: (a) two data files from OhioHealth, and (b) experiences in serving patients or people from Guernsey County.
July 16, 2024 to August 14, 2024	<ul style="list-style-type: none"> Community stakeholders sent their inputs on their assessment of significant health needs in Guernsey County to Mary Ann G. Abiado from OhioHealth.
August 14, 2024; 9:30 AM to Noon	<ul style="list-style-type: none"> OhioHealth Southeastern Medical Center, in collaboration with OhioHealth External Affairs held the public meeting virtually through Microsoft Teams. Jeffrey Kasler and Mary Ann G. Abiado from OhioHealth facilitated the public meeting. The stakeholders verbally stated additional significant health needs affecting Guernsey County. The stakeholders voted on the priority health needs in Guernsey County, and the OhioHealth alignment with the State Health Improvement Plan (SHIP). OhioHealth documented the community stakeholder votes and the discussions.

I. The Impact of Any Actions Taken to Address the Significant Health Needs Identified in the Hospital Facility's 2022 CHNA

Appendix D summarizes the impact of OhioHealth Southeastern Medical Center's Community Benefit programs that addressed the priority health needs in the OhioHealth board-approved 2022 Community Health Needs Assessment and Fiscal Years 2023-2025 Implementation Strategy.

J. Contracted Organizations to Assist with Conducting the CHNA

There were no contractors involved in the conduct of OhioHealth Southeastern Medical Center Community Health Needs Assessment (CHNA).

Mary Ann G. Abiado, PhD, MSN, RN, OhioHealth's Data Management and Evaluation Specialist and Community Health Nurse has over 14 years of experience in writing OhioHealth's Community Health Needs Assessment (CHNA) and developing Implementation Strategies to address the priority health needs. The 2025 OhioHealth Southeastern Medical Center's CHNA and Fiscal Years 2026-2028 Implementation Strategy were reviewed by OhioHealth leaders:

- **Wendy Elliott**– President, OhioHealth Southeastern Medical Center.
- **Gina Woods** – Chief Nursing Officer and Vice President, Patient Services.
- **Jeffrey R. Kasler** – Director, Government Relations, OhioHealth.

The OhioHealth Legal Department has reviewed the content of the OhioHealth Southeastern Medical Center's CHNA and assessed that the contents are compliant with the Internal Revenue Service's requirements for nonprofit hospitals.

Appendix A. Summary of Data and Information from Ohio's 2019 State Health Assessment and 2022 Online State Health Assessment Portal

Appendix Table 1. Summary of Findings from the 2022 Online State Health Assessment (Ohio Department of Health, n.d.)

Findings	Description and Data Details
Ohioans' overall wellbeing declined.	<ul style="list-style-type: none"> Premature death, life expectancy and overall health worsened. The leading causes of premature death in 2017 were unintentional injuries (including drug overdose), cancer, and heart disease. Ohio's life expectancy dropped from 77.6 years in 2010 to 76.5 years in 2017. Increase in infant deaths, blood pressure, and late-stage cancer diagnosis was observed. Black or African Americans life expectancy in 2017 was 72.8 years compared to 77 among Whites.
Ohioans' lack opportunities to reach full health potential.	<ul style="list-style-type: none"> Ohioans who are black or African American, with low income, with disabilities, or live in Appalachian counties have worse health outcomes compared to overall Ohio population.
Health promotion activities need to be addressed.	<ul style="list-style-type: none"> Interventions need to focus on the following: (i) physical activity, (ii) tobacco use, (iii) access to dental care, (iv) access to mental health, (v) income disparities, (vi) unemployment, (vii) adverse childhood experiences (ACEs), (viii) access to transportation, (ix) lead poisoning, and (x) racism.
Ohio's significant health challenges continue to be mental health and addiction, chronic disease, and maternal and infant health.	<ul style="list-style-type: none"> Ohio's performance worsened or did not improve. Cross-cutting factors include poverty, lack of access to transportation, lack of physical activity, unhealthy eating, and lack of access to care.
Multi-sector collaboration is important to improve health.	<ul style="list-style-type: none"> Approximately 80 percent of modifiable factors that can improve health are related to health behaviors (healthy eating and tobacco cessation) and social determinants of health (housing, transportation, education, employment). Poverty, racism, discrimination, trauma, violence, and toxic stress lead to health disparities.

Findings from Appendix Table 1.

Ohioans have been afflicted with alarming rates of mental health and addiction, chronic diseases, and poor birth outcomes. Outcomes-focused collaborations among government, health care systems and community organizations are necessary to improve health and increase access to health care services.

Appendix Table 2. Data on overall health status and premature death in Ohio and population groups with the worst outcome.

Desired Outcome	Indicator	Ohio (2015)	Ohio (2017)	Ohio (2020)	United States (2020)
Improve overall health status	% of adults with fair or poor health	16.5%	18.9%	15%	12%
	Worst outcome Low-income adults (less than \$15,000 annual household income)	38.6%	45.1%	No data	No data
Reduce premature death	Years of potential life lost before age 75, per 100,000 population (age-adjusted)	7,876.1 years lost before age 75 per 100,000	8,774.5 years lost before age 75 per 100,000	8,700 years lost before age 75 per 100,000 (2018-2020)	7,300 years lost before age 75 per 100,000 (2018-2020)
	Worst outcome Black (non-Hispanic)	10,850.5 years lost before age 75 per 100,000	12,599 years lost before age 75 per 100,000	No data	No data

Summary of Findings from Appendix Table 2.

In 2020, 15% of adults in Ohio considered themselves in fair or poor health compared to 12% of adults in the United States. There was a 3.9% reduction in the percent of Ohio adults with fair or poor health in 2020 compared to 2017. From 2018-2020, in Ohio, 8,700 years of life were lost due to deaths of Ohioans under age 75 per 100,000 people compared to 7,300 years of life lost due to deaths in the United States.

Appendix Table 3. Ohio outcomes data on reducing depression, reducing drug dependence or abuse, and reducing suicide deaths compared to the United States. Data shows Ohio's progress in addressing mental health and addiction.

Desired Outcome	Indicator	Ohio (2013-2014)	Ohio (2015-2016)	Ohio (2020)	United States (2020)
Reduce depression (%).	% of persons 12-17 years with a major depressive episode in the past year	10.33%	13.98%	18.25%	17%
	% persons ages 18+ with a major depressive episode in the past year	7.33%	7.85%	9.25%	6%
Desired Outcome	Indicator	Ohio (2013-2014)	Ohio (2015-2016)	Ohio (2018-2019)	United States (2018-2019)
Reduce drug dependence or abuse (%).	% persons age 12+ who has illicit drug dependence or abuse in the past year	2.76%	2.61%	4%	4%
Desired Outcome	Indicator	Ohio (2015)	Ohio (2015-2016)	Ohio 2016-2020)	United States (2016-2020)
Reduce suicide deaths (Number of deaths per 100,000 population).	Number of suicide deaths per 100,000 population	13.9	14.8	15	14
	Males ages 10-24	15.9	18.5	No data	No data
	Males ages 25-44	28.5	33.6	No data	No data
	White (non-Hispanic) males ages 45-64	34	32.1	No data	No data
	White (non-Hispanic) males ages 65+	32.2	33	No data	No data

Continuation of Appendix Table 3. Ohio outcomes data on reducing depression, reducing drug dependence or abuse, and reducing suicide deaths compared to the United States. Data shows Ohio's progress in addressing mental health and addiction.

Desired Outcome	Indicator	Ohio (2015)	Ohio (2015-2016)	Ohio (2018-2020)	Ohio (2018-2020)
Reduce unintentional drug overdose death (Number of deaths per 100,000 population).	Number of deaths due to unintentional drug overdoses per 100,000 population	27.7	44.1	38	23
	White (non-Hispanic) males ages 25-44	87.1	136.7	No data	No data
	White (non-Hispanic) males ages 45-64	43.5	72.4	No data	No data
	White (non-Hispanic) females ages 25-54	39.7	59.9	No data	No data
	Black (non-Hispanic) males ages 25-54	50.9	99	No data	No data
	Black (non-Hispanic) males 55-64	74.7	137.8	No data	No data

Summary of Findings from Appendix Table 3.

Depression, drug dependence or abuse, suicide, and unintentional drug overdose deaths showed an increasing trend in Ohio.

Appendix Table 4. Ohio's outcomes related to reducing heart disease, hypertension, diabetes, prediabetes, and child asthma morbidity. Data shows Ohio's progress in addressing chronic diseases.

Desired Outcome	Indicator	Baseline (2015)	Ohio (2017)	Ohio (2021)	United States (2021)
Reduce heart disease (%).	% of adults ever diagnosed with coronary heart disease	4.2%	4.7%	4.6%	4.9%
	% of adults ever diagnosed with heart attack	4.9%	5.5%	5.2%	No data
Reduce hypertension (%).	% of adults ever diagnosed with hypertension	34.3%	34.7%	35.6%	49.6%
	Black or African American (non-Hispanic)	40.3%	40%	No data	No data
	People with a disability	53.1%	No data	No data	No data
	People with less than high school diploma	40.7%	48.9%	No data	No data
	People with less than \$15,000 annual household income	35.7%	46.6%	No data	No data
	People older than 65 years	62.2%	60%	No data	No data
	People who live in Appalachian counties	39.7%	No data	No data	No data

Continuation of Appendix Table 4. Ohio's outcomes related to reducing heart disease, hypertension, diabetes, prediabetes, and child asthma morbidity. Data shows Ohio's progress in addressing chronic diseases.

Desired Outcome	Indicator	Baseline (2015)	Ohio (2017)	Ohio (2019)	United States (2017-2020)
Reduce diabetes (%).	% of adults who have been told by a health professional that they have diabetes	11%	11.3%	12.6%	16.3%
	Black or African American (non-Hispanic)	14.1%	14.2%	No data	No data
	People with a disability	21.8%	No data	No data	No data
	People with less than high school diploma	13.6%	15.8%	No data	No data
	People with less than \$15,000 annual household income	13.7%	19.4%	No data	No data
	People older than 65 years	23.4%	22.8%	No data	No data
	People who live in Appalachian counties	12.3%	No data	No data	No data
Desired Outcome	Indicator	Baseline (2015)	Ohio (2017)	Ohio (2019)	United States (2017-2020)
Monitor prediabetes (%).	% of adults who have been told by a health professional that they have prediabetes	7.5%	8.8%	9.5%	10.8%
Desired Outcome	Indicator	Baseline (2015)	Ohio (2017)	Ohio (2017-2018)	United States (2010-2018)
Reduce child asthma morbidity (Emergency department visits per 10,000 children).	Emergency department visits for pediatric asthma, per 10,000 children, ages 0-17 (does not include patients with cystic fibrosis or respiratory system abnormalities or transfers)	86.9	72.3	80.3	88.1
	Black or African American	245.6	175.9	No data	No data
	Appalachian counties	78.2	No data	No data	No data

Summary of Findings from Appendix Table 4.

The prevalence of heart disease, hypertension, diabetes, and prediabetes in Ohio show an increasing trend. The emergency department visits for pediatric asthma shows a declining trend.

Appendix Table 5. Ohio's outcomes related to reducing preterm birth, low birth weight, and infant mortality. Data shows Ohio's progress in addressing maternal and infant health.

Desired Outcome	Indicator	Ohio (2015)	Ohio (2017)	Ohio (2021)	United States (2020)
Reduce preterm births (%).	% of live births that are preterm, less than 37 weeks gestation	10.3%	10.4%	10.59%	10.49%
	Black, non-Hispanic	14.1%	14.3%	No data	No data
	People with less than high school diploma	11.5%	11.7%	No data	No data
	Less than 18 years old	10.7%	10.7%	No data	No data
Reduce very preterm births (%).	% of births which the newborn weighed less than 32 weeks	1.7%	1.8%	1.6%	1.5%
Desired Outcome	Indicator	Ohio (2015)	Ohio (2017)	Ohio (2014-2020)	United States (2020)
Reduce low birth-weight births (%).	% of births in which the newborn weighed less than 2,500 grams	8.5%	8.7%	9%	8%
	Black, non-Hispanic	13.9%	14.3%	No data	No data
	People with less than high school diploma	10.8%	11.3%	No data	No data
	Less than 18 years old	10.2%	10.8%	No data	No data
Desired Outcome	Indicator	Ohio (2015)	Ohio (2017)	Ohio (2014-2020)	United States (2020)
Reduce infant mortality.	Rate of infant deaths per 1,000 live births	7.2	7.2	7.0	6.0
	Black, Non-Hispanic	15.2	15.8	No data	No data
Desired Outcome	Indicator	Ohio (2015)	Ohio (2017)	Ohio (2019)	United States (2019)
Reduce neonatal infant deaths.	Rate of neonatal infant deaths (birth through 27 days of life) per 1,000 live births	4.8	5	4.6	3.7

Summary of Findings from Appendix Table 5.

Ohio's infant mortality rate, neonatal infant death rate, and percent of very preterm births showed a declining trend. However, the percent of preterm births and low birth weights in Ohio showed an increasing trend.

Appendix Table 6. Ohio's outcomes related to social determinants of health, such as housing, job and income availability compared to United States. Data shows Ohio's progress in addressing social determinants of health.

Measure	Year	Ohio	United States
Access to housing assistance Average number of months spent on HUD housing assistance waiting list.	2017	22 months	27 months
Food insecurity Percent of households that are food insecure.	2017	14.5%	12.5%
Incarceration rate Imprisonment rate of sentenced prisoners under the jurisdiction of state or federal correctional authorities per 100,000 residents.	2019	430	419
Severe housing burden for renters (Less than \$20,000 household income) Households spending 30% or more of income on housing as a percent of renter-occupied housing units where the household income is less than \$20,000.	2019	86.3%	88.7%
Severe housing burden for renters (\$20,000 to \$34,999) Households spending 30% or more of income on housing as a percent of renter-occupied housing units where the household income is \$20,000 to \$34,999.	2019	65.8%	78.6%

Continuation of Appendix Table 6. Ohio's outcomes related to social determinants of health, such as housing, job and income availability compared to United States. Data shows Ohio's progress in addressing social determinants of health.

Measure	Year	Ohio	United States
Severe housing burden for renters (\$35,000 to \$49,999) Households spending 30% or more of income on housing as a percent of renter-occupied housing units where the household income is \$35,000 to \$49,999.	2019	25.6%	50.2%
Severe housing burden for renters (\$50,000 to \$74,999 household income) Households spending 30% or more of income on housing as a percent of renter-occupied housing units where the household income is \$35,000 to \$49,999.	2019	6.7%	26.2%
Labor force participation Labor force participation rate, ages 16 and over.	2019	63.5%	63.6%
Out-of-pocket spending on health care Percent of people whose out-of-pocket spending on health care accounted for more than 10% of annual income.	2020	21.1% Breakdown per race: <ul style="list-style-type: none"> African American – 12.2% White – 23.6% 	17.4% Breakdown per race: <ul style="list-style-type: none"> African American – 16.5% White – 18.5%
Low income working families with children Low income working families with children as a percent of all families.	2019	22%	22%

Summary of Findings from Appendix Table 6.

Compared to the United States, Ohio has higher rates of food insecurity, incarceration rate and percent of people where their out-of-pocket spending for healthcare comprised more than 10% of their income.

Appendix Table 7. Outcomes related to adolescent suicide, adolescent well visits, adolescent bullying, adult obesity, adult poverty, adult smoking or adverse childhood experiences, child abuse and neglect, intimate partner violence, and depression in Ohio compared to the United States. Data were obtained from the 2022 Online State Health Assessment (Ohio Department of Health, n.d.).

Measure	Year	Ohio	United States
Adolescent suicide Adolescent suicide rate, ages 15-19, per 100,000.	2020	11.3 per 100,000	10.8 per 100,000
Adolescent well visit Percent of adolescents, ages 12 through 17, with a preventive medical visit in the past year (2-year estimate).	2020	82.5%	80.7%
Adult obesity Percent of adults 18+ who are obese (>95 th percentile for body mass index).	2020	35.5%	31.9%
Adult poverty Percent of persons age 18+ who live in households at or below the poverty threshold (<100 Federal Poverty Level).	2019	12.3%	11.9%
Adult smoking Percent of adults who are current smokers.	2020	19.3%	15.5%
Adverse childhood experiences Percent of children who have experienced two or more adverse experiences among households with 100 to 199% federal poverty level.	2020	29.9%	24.9%

Continuation of Appendix Table 7. Outcomes related to adolescent suicide, adolescent well visits, adolescent bullying, adult obesity, adult poverty, adult smoking or adverse childhood experiences, child abuse and neglect, intimate partner violence, and depression in Ohio compared to the United States. Data were obtained from the 2022 Online State Health Assessment (Ohio Department of Health, n.d.).

Measure	Year	Ohio	United States
Adverse childhood experiences Percent of children who have experienced two or more adverse experiences among households with 200 to 399% federal poverty level.	2020	18.7%	16.7%
Adverse childhood experiences Percent of children who have experienced two or more adverse experiences among households with 400% federal poverty level or greater.	2020	8%	8.1%
Adverse childhood experiences Percent of children who have experienced two or more adverse experiences.	2020	20.4%	18.1%
Adolescent Bullying (perpetrators) Percent of adolescents, ages 12 through 17, who bully others (perpetrators).	2020	14.7%	13.7%
Adolescent Bullying (Victims) Percent of adolescents, ages 12 through 17, who are bullied.	2020	40.5%	35.2%
Child Abuse and Neglect Rate of child maltreatment victims per 1,000 children in population.	2020	9.2 per 1,000 children	8.4 per 1,000 children
Homicide deaths Number of deaths due to homicide per 100,000 population (age adjusted).	2020	9.2	7.2
Intimate partner violence Lifetime prevalence of rape, physical violence, and/or stalking by an intimate partner for women.	2012	38%	37.3%

Continuation of Appendix Table 7. Outcomes related to adolescent suicide, adolescent well visits, adolescent bullying, adult obesity, adult poverty, adult smoking or adverse childhood experiences, child abuse and neglect, intimate partner violence, and depression in Ohio compared to the United States. Data were obtained from the 2022 Online State Health Assessment (Ohio Department of Health, n.d.).

Measure	Year	Ohio	United States
Major Depressive Episodes Percent of persons aged 18+ who experienced a major depressive episode within the past year.	2019	8.8%	7.5%
Youth depression prevalence Percent of adolescents aged 12-17 who have had at least one major depressive episode.	2019	14.7%	15.1%
Youth with depression who did not receive mental health services Percent of youth with major depressive episode who did not receive any mental health treatment.	2018	52.2%	59.6%
Unmet need for mental health Percent of adults aged 18 and older with past year mental illness who reported that their perceived need for treatment/counseling was not received.	2018	22.1%	23.6%

Summary of Findings from Appendix Table 7.

Compared to the United States, Ohio's population have higher rates of adolescent suicide, obesity, poverty, smoking, adverse childhood experiences, adolescent bullying, child abuse and neglect, intimate partner violence, homicide deaths, major depressive episode, and insufficient sleep.

Appendix Table 8. Outcomes related to excessive drinking, illicit drug use and dependence, illicit drug use, marijuana use, alcohol, cigarettes, cocaine, heroin, and unintentional injuries in Ohio compared to the United States. Data were obtained from the 2022 Online State Health Assessment (Ohio Department of Health, n.d.).

Measure	Year	Ohio	United States
Excessive drinking Percent of adults reporting binge drinking, defined as consuming more than 4 (women) or 5 (men) alcoholic beverages on a single occasion in the past 30 days.	2020	16.3%	15.7%
Illicit drug abuse and dependence Percent of persons age 12+ with past-year illicit drug use disorder.	2020	5.9%	6.6%
Illicit drug use Percent of individuals aged 12+ with illicit drug use in the past month.	2020	12.7%	13.2%
Marijuana use Percent of individuals aged 12+ with marijuana use in past month (2014-2016); substate estimates are calculated on groups of counties.	2016	8.1%	8.5%
Perceived risk of alcohol Percent of individuals aged 12-17 perceiving great risk of having 5 or more drinks of an alcoholic beverage once or twice a week.	2020	43%	35.5%
Perceived risk of cigarettes Percent of individuals aged 12-17 perceiving great risk of smoking one or more packs of cigarettes per day.	2020	63%	66.1%
Perceived risk of cocaine Percent of individuals aged 12-17 perceiving great risk of intaking cocaine once a month.	2020	50.3%	53.3%
Perceived risk of heroin Percent of individuals aged 12-17 perceiving great risk of trying heroin once or twice.	2020	62.3%	62%

Continuation of Appendix Table 8. Outcomes related to excessive drinking, illicit drug use and dependence, illicit drug use, marijuana use, alcohol, cigarettes, cocaine, heroin, and unintentional injuries in Ohio compared to the United States. Data were obtained from the 2022 Online State Health Assessment (Ohio Department of Health, n.d.).

Measure	Year	Ohio	United States
Perceived risk of marijuana Percent of individuals aged 12-17 perceiving great risk of smoking marijuana once a month.	2020	22.2%	22.8%
Unintentional injuries (including drug overdose and motor vehicle accidents) Annual age-adjusted mortality rates for the leading causes of death, per 100,000 population, Ohio.	2020	78.2 per 100,000	57.6 per 100,000
Unmet need for illicit drug use treatment Percent ages 12 and older needing but not receiving treatment for illicit drug use in the past year, 2019-2020.	2020	5.3%	6.3%

Summary of Findings from Appendix Table 8.

Compared to the United States, Ohio's population has higher rates of unintentional injuries (combined drug overdose and motor vehicle accidents).

Appendix Table 9. Outcomes related to access to exercise, asthma prevalence, depression, diabetes, obesity, smoking, Alzheimer's Disease, and cancer in Ohio compared to the United States. Data were obtained from the 2022 Online State Health Assessment (Ohio Department of Health, n.d.).

Measure	Source	Year	Ohio	United States
Access to exercise opportunities Percent of individuals who live reasonably close to a location for physical activity (County Health Rankings, 2023).	County Health Rankings (2023); Ohio Department of Health Online State Health Assessment (n.d.)	2020, 2022	84%	84%
Prevalence of asthma in children Estimated prevalence of children aged 0-17 who currently have asthma.	Ohio Department of Health Online State Health Assessment (n.d.)	2019	7.7%	7.4%
Adult asthma prevalence (crude rate) Estimated crude prevalence of adults who currently have asthma.	Ohio Department of Health Online State Health Assessment (n.d.)	2019	11.1%	9%
Adult depression prevalence (crude rate) Estimated crude prevalence of adults ever diagnosed with depression.	Ohio Department of Health Online State Health Assessment (n.d.)	2020	22%	19.6%
Adult diabetes prevalence (crude rate) Crude percent of adults who have been told by a health professional that they have diabetes.	Ohio Department of Health Online State Health Assessment (n.d.)	2020	12.4%	10.6%
Prevalence of obesity among adolescents, ages 10-17 (total) Percent of adolescents, ages 10 through 17, who are obese (BMI at or above the 95th percentile).	Ohio Department of Health Online State Health Assessment (n.d.)	2019	15.7%	16%

Continuation of Appendix Table 9. Outcomes related to access to exercise, asthma prevalence, depression, diabetes, obesity, smoking, Alzheimer's Disease, and cancer in Ohio versus United States. Data were obtained from the 2022 Online State Health Assessment (Ohio Department of Health, n.d.).

Measure	Source	Year	Ohio	United States
Prevalence of obesity among high school students (African American) Percent of adolescents, ages 10 through 17, who are obese (BMI at or above the 95th percentile).	Ohio Department of Health Online State Health Assessment (n.d.)	2019	21.5%	21.1%
Prevalence of obesity among high school students (White) High school students who were greater than or equal to 95th percentile for body mass index, based on sex- and age-specific reference data from the 2000 CDC growth charts.	Ohio Department of Health Online State Health Assessment (n.d.)	2019	15.2%	13.1%
Prevalence of obesity among high school students (total) High school students who were greater than or equal to 95th percentile for body mass index, based on sex- and age-specific reference data from the 2000 CDC growth charts.	Ohio Department of Health Online State Health Assessment (n.d.)	2019	16.8%	15.5%
Adult smoking Percent of adults who are current smokers.	Ohio Department of Health Online State Health Assessment (n.d.)	2020	19.3%	15.5%

Continuation of Appendix Table 9. Outcomes related to access to exercise, asthma prevalence, depression, diabetes, obesity, smoking, Alzheimer's Disease, and cancer in Ohio compared to the United States. Data were obtained from the 2022 Online State Health Assessment (Ohio Department of Health, n.d.).

Measure	Source	Year	Ohio	United States
Alzheimer's Disease Mortality Rate Annual age-adjusted mortality rates for the leading causes of death, per 100,000 population.	Ohio Department of Health Online State Health Assessment (n.d.); Centers for Disease Control and Prevention National Center for Health Statistics (2023)	2020, 2021	38 per 100,000	36 per 100,000
Cancer Mortality Rate Annual age-adjusted mortality rates for the leading causes of death, per 100,000 population.	Ohio Department of Health Online State Health Assessment (n.d.); Centers for Disease Control and Prevention (2022)	2020	159.1 per 100,000	144.1 per 100,000

Summary of Findings from Appendix Table 9.

Compared to the United States, Ohio's population have higher rates of the following: (a) adult asthma prevalence, (b) adult depression prevalence, (c) adult diabetes prevalence, (d) adult obesity, (e) prevalence of obesity among high school students, (f) adult smoking, (g) Alzheimer's Disease, and (h) cancer mortality rates.

Appendix Table 10. Outcomes related to breastfeeding, obesity among children, and child asthma, child masculinization, child poverty, infant mortality rate, low birth weight, preterm birth, safe sleep for Ohio compared to the United States. Data were obtained from the 2022 Online State Health Assessment (Ohio Department of Health, n.d.).

Measure	Year	Ohio	United States
Breastfeeding – Ever Percent of infants who are ever breastfed.	2018	82.3%	83.9%
Breastfeeding at Six Months Percent of infants who are breastfed at 6 months of age.	2018	50%	56.7%
Teen birth rate Number of births per 1,000 female population ages 15-19.	2020	17.6 per 1,000 females	15.4 per 1,000 females
Safe sleep Percent of infants most often laid on his or her back to sleep.	2014	89.1%	88.9%
Infant mortality rate among total population Number of infant deaths per 1,000 live births (total).	2018	6.9 per 1,000 live births	5.7 per 1,000 live births
Infant mortality rate among African Americans Number of infant deaths per 1,000 live births among Non-Hispanic African Americans.	2018	14 per 1,000 live births	10.8 per 1,000 live births

Continuation of Appendix Table 10. Outcomes related to breastfeeding, obesity among children, and child asthma, child masculinization, child poverty, infant mortality rate, low birth weight, preterm birth, and safe sleep in Ohio compared to the United States. Data were obtained from the 2022 Online State Health Assessment (Ohio Department of Health, n.d.).

Measure	Year	Ohio	United States
Low birth weight Percent of births in which the newborn weighed <2,500 grams.	2020	8.5%	8.3%
Preterm birth Percent of live births that are preterm (< 37 weeks gestation.	2020	10.3%	10.2%
Prenatal care during first trimester Percent of women who completed a pregnancy in the last 12 months who received prenatal care in the first trimester.	2020	73.3%	77.7%

Summary of Findings from Appendix Table 10.

Compared to the United States, infant mortality rate and teen birth rate in Ohio in 2020 were higher. Infant mortality rates among African Americans are 2.6 times higher compared to infant mortality rates among Whites.

Appendix B. Summary of Health and Health-Related Data for Guernsey County

Appendix Table 11. Summary of Health Outcomes Data for Guernsey County compared to Ohio and U.S. (County Health Rankings, 2024).

Data	Data Years	Guernsey County	Ohio	United States
Premature Death Years of potential life lost before age 75 per 100,000 population, age adjusted.	2019-2021	11,800 years of potential life lost	9,400 years of potential life lost	8,000 years of potential life lost
Leading Causes of Death under Age 75	2019-2021			
Malignant neoplasms	2019-2021	185 per 100,000 people	No data	No data
Diseases of heart	2019-2021	139.1 per 100,000 people	No data	No data
Accidents	2019-2021	73.3 per 100,000 people	No data	No data
Chronic lower respiratory diseases	2019-2021	68.6 per 100,000 people	No data	No data
COVID-19	2019-2021	51.7 per 100,000 people	No data	No data
Life Expectancy Average number of years a person can expect to live.	2019-2021	73.2 years	75.6 years	77.6 years
Poor or Fair Health Percent adults reporting fair or poor health (age-adjusted).	2021	19%	16%	14%

Continuation of Appendix Table 11. Summary of Health Outcomes Data for Guernsey County compared to Ohio and U.S. (County Health Rankings, 2024).

Data	Data Years	Guernsey County	Ohio	United States
Infant Mortality Infant mortality (Number of all infant deaths before age 1, per 1,000 live births).	2015-2021	11 per 1,000 live births	7 per 1,000 live births	6 per 1,000 live births
Child Mortality Number of deaths among children under 20 per 100,000 population.	2018-2021	90 per 100,000 people	60 per 100,000 people	50 per 100,000 people
Poor Physical Health Days Average number of physically unhealthy days in past 30 days (age-adjusted).	2021	4.3 poor physical health days	3.6 poor physical health days	3.3 poor physical health days
Poor Mental Health Days Average number of mentally unhealthy days in past 30 days (age-adjusted).	2021	5.3 poor mental health days	5.5 poor mental health days	4.8 poor mental health days
Low Birthweight Percent of live births with low birth weight (under 5 pounds, 8 ounces).	2016-2022	8% of babies had low birth weight	9% of babies had low birth weight	8% of babies had low birth weight
Frequent Physical Distress % adults reporting 14 or more days of poor physical health per month.	2021	14%	11%	10%
Frequent Mental Distress % adults reporting 14 or more days of poor mental health per month (age-adjusted).	2021	19%	17%	15%
Diabetes Prevalence % adults aged 20 and above with diagnosed diabetes (age adjusted).	2021	12%	11%	10%
HIV Prevalence Number of people aged 13+ years with HIV per 100,000 population.	2021	99 per 100,000 people	242 per 100,000 people	382 per 100,000 people

Summary of Findings from Appendix Table 11

Infant mortality rate, child mortality rate, poor physical health days, frequent physical and mental distress, and diabetes prevalence in Guernsey County were higher in Guernsey County compared to Ohio and United States.

Appendix Table 12. Summary of Health Behaviors Data for Guernsey County compared to Ohio and U.S. (County Health Rankings, 2024).

Data	Data Years	Guernsey County	Ohio	United States
Adult Smoking Percent of adults who are current smokers (age-adjusted).	2021	24%	19%	15%
Adult Obesity Percent of adults age 18+ with body mass index of 30+ (age-adjusted).	2021	44%	38%	34%
Food Environment Index Index of factors that contribute to a healthy food environment, from 0 (worst) to 10 (best).	2019 and 2021	6.4 out of 10	7.0 out of 10	7.7 out of 10
Physical Inactivity Percent of adults age 18+ reporting no leisure-time physical activity (age-adjusted).	2021	30%	25%	23%
Access to Exercise Opportunities Percent of population with adequate access to locations for physical activity.	2023, 2022 and 2020	60%	84%	84%
Excessive Drinking Percent of adults reporting binge or heavy drinking (age-adjusted).	2021	17%	20%	18%
Alcohol-Impaired Driving Deaths % Alcohol-impaired driving deaths.	2017-2021	34%	32%	26%
Sexually Transmitted Infections Number of newly diagnosed chlamydia cases per 100,000 population.	2021	305.6 per 100,000 people	479.8 per 100,000 people	495.5 per 100,000 people
Teen Births Number of births per 1,000 female population ages 15-19.	2016-2022	27 per 1,000 females ages 15-19	18 per 1,000 females ages 15-19	17 per 1,000 females ages 15-19
Food Insecurity Percent of population who lack adequate access to food).	2021	15%	12%	10%

Continuation of Appendix Table 12. Summary of Health Behaviors Data for Guernsey County compared to Ohio and U.S. (County Health Rankings, 2024).

Data	Data Years	Guernsey County	Ohio	United States
Limited Access to Healthy Foods Percent of population who are low-income and do not live close to a grocery store).	2019	13%	7%	6%
Drug Overdose Deaths Number of drug poisoning deaths per 100,000 population).	2019-2021	38 per 100,000 people	42 per 100,000 people	27 per 100,000 people
Insufficient Sleep Percent of adults with fewer than 7 hours of sleep on average.	2020	37%	36%	33%

Summary of Findings from Appendix Table 12

Percent of adult smoking, adult obesity, physical inactivity, rate of teen births, food insecurity, and limited access to healthy foods in Guernsey County were higher compared to Ohio and United States. Rate of drug overdose deaths in Guernsey County and Ohio were higher compared to United States.

Appendix Table 13. Summary of Clinical Care Data for Guernsey County compared to Ohio and U.S. (County Health Rankings, 2024).

Data	Data Years	Guernsey County	Ohio	United States
Uninsured Percent of population under age 65 without health insurance).	2021	10%	8%	10%
Uninsured Adults Percent of adults under age 65 without health insurance).	2021	11%	9%	12%
Uninsured Children Percent of children under age 19 without health insurance).	2021	7%	5%	5%
Primary Care Physicians Ratio of population to primary care physicians.	2021	2,730 people to 1 primary care physician	1,330 people to 1 primary care physician	1,330 people to 1 primary care physician
Other Primary Care Providers Ratio of population to other primary care providers such as nurse practitioners, physician assistants and clinical nurse specialists who can provide routine and preventive care).	2023	910 people to 1 other primary care provider (nurse practitioners, physician assistants, and clinical nurse specialists)	710 people to 1 other primary care provider (nurse practitioners, physician assistants, and clinical nurse specialists)	760 people to 1 other primary care provider (nurse practitioners, physician assistants, and clinical nurse specialists)
Dentists Ratio of population to dentists.	2022	1,900 people to 1 dentist	1,530 people to 1 dentist	1,360 people to 1 dentist
Mental Health Providers Ratio of population to mental health providers.	2023	380 people to 1 mental health provider	310 people to 1 mental health provider	320 people to 1 mental health provider
Mammography Screening (Percent of female Medicare enrollees ages 65-74 that received an annual mammography screening).	2021	45%	46%	43%
Flu Vaccinations Percent of fee-for-service Medicare enrollees that had an annual flu vaccination.	2021	43%	49%	46%

Summary of Findings from Appendix Table 13.

The percent of uninsured (all age groups, adults, and children) were higher in Guernsey County compared to Ohio. There is a need to increase the number of primary care physicians, other primary care providers, mental health providers, and dentists in Guernsey County. Similarly, the flu vaccination rates need to be increased in Guernsey County.

Appendix Table 14. Summary of Social and Economic Factors (Social Determinants of Health) for Guernsey County compared to Ohio and U.S. (County Health Rankings, 2024).

Data	Data Years	Guernsey County	Ohio	United States
High School Graduation Percent of 9th grade cohort that graduates in four years.	2018-2022	86%	91%	89%
Some College Percent of adults ages 25-44 with some postsecondary education).	2018-2022	48%	66%	68%
Unemployment Percent of population ages 16+ who are unemployed but seeking work.	2022	4.9%	4%	3.7%
Children in Poverty Percent of people under age 18 in poverty).	2018-2022; 2022	21%	18%	16%
Income Inequality Ratio of household income at the 80th percentile to income at the 20th percentile.	2018-2022	4.2 times income inequality	4.7 times income inequality	4.9 times income inequality
Children in Single-Parent Households Percent of children that live in a household headed by single parent.	2018-2022	28% of children live in single-parent households	26% of children live in single-parent households	25% of children live in single-parent households
Social Associations Number of membership associations per 10,000 population.	2021	16.2 civic, political, religious, sports and professional organizations per 10,000 people	10.7 civic, political, religious, sports and professional organizations per 10,000 people	9.1 civic, political, religious, sports and professional organizations per 10,000 people

Continuation of Appendix Table 14. Summary of Social and Economic Factors (Social Determinants of Health) for Guernsey County compared to Ohio and U.S. (County Health Rankings, 2024).

Data	Data Years	Guernsey County	Ohio	United States
Injury Deaths Number of deaths due to injury per 100,000 population.	2017-2021	100 deaths due to injury such as homicides, suicides, motor vehicle crashes and poisonings per 100,000 people	99 deaths due to injury such as homicides, suicides, motor vehicle crashes and poisonings per 100,000 people	80 deaths due to injury such as homicides, suicides, motor vehicle crashes and poisonings per 100,000 people
Disconnected Youth Percent of teens and young adults ages 16-19 who are neither working nor in school.	2018-2022	7% of teens and young adults ages 16-19 were neither working nor in school	6% of teens and young adults ages 16-19 were neither working nor in school	7% of teens and young adults ages 16-19 were neither working nor in school
Reading Scores for 3rd Graders Average grade level performance for 3rd graders on English Language Arts standardized tests.	2018	Third graders Scored 3.0 on a standardized English language arts test. A score of 3 means students performed at grade level	Third graders Scored 3.1 on a standardized English language arts test. A score of 3 means students performed at grade level	Third graders Scored 3.1 on a standardized English language arts test. A score of 3 means students performed at grade level
Math scores for 3rd Graders Average grade level performance for 3rd graders on math standardized tests. A score of 3.0 indicates students performed at grade-level.	2018	Third graders scored 2.8 on a standardized math test. A score of 3.0 indicates students performed at grade-level	Third graders scored 3.0 on a standardized math test. A score of 3 indicates students performed at grade-level	Third graders scored 3.0 on a standardized math test. A score of 3 indicates students performed at grade-level

Continuation of Appendix Table 14. Summary of Social and Economic Factors (Social Determinants of Health) for Guernsey County compared to Ohio and U.S. (County Health Rankings, 2024).

Data	Data Years	Guernsey County	Ohio	United States
Median Household Income Where half of households in a county earn more and half of households earn less.	2022; 2018-2022	\$56,000	\$65,800	\$74,800
Residential Segregation between Black and White residents Index of dissimilarity where higher values indicate greater residential segregation.	2018-2022	Index of 58 0 means no segregation and 100 means complete segregation	Index of 70 0 means no segregation and 100 means complete segregation	Index of 63 0 means no segregation and 100 means complete segregation
Homicides Number of deaths due to homicide per 100,000 population.	2015-2021	4 homicide deaths per 100,000 people	7 homicide deaths per 100,000 people	6 homicide deaths per 100,000 people
Suicides Number of deaths due to suicide per 100,000 population).	2017-2021	18 per 100,000 people	15 per 100,000 people	14 per 100,000 people
Firearm Fatalities Number of deaths due to firearms per 100,000 population.	2017-2021	15 per 100,000 people	14 per 100,000 people	13 per 100,000 people
Juvenile Arrests Rate of delinquency cases per 1,000 juveniles.	2021	38 juvenile delinquency court cases per 1,000 youths	22 juvenile delinquency court cases per 1,000 youths	No data

Continuation of Appendix Table 14. Summary of Social and Economic Factors (Social Determinants of Health) for Guernsey County compared to Ohio and United States (County Health Rankings, 2024).

Data	Data Years	Guernsey County	Ohio	United States
Severe Housing Problems Percent of households with at least 1 of 4 housing problems: overcrowding, high housing costs, lack of kitchen facilities, or lack of plumbing facilities.	2016-2020	14% of households experienced at least 1 of the following housing problems: (a) overcrowding, (b) high housing costs, (c) lack of kitchen facilities, (d) lack of plumbing facilities.	13% of households experienced at least 1 of the following housing problems: (a) overcrowding, (b) high housing costs, (c) lack of kitchen facilities, (d) lack of plumbing facilities.	17% of households experienced at least 1 of the following housing problems: (a) overcrowding, (b) high housing costs, (c) lack of kitchen facilities, (d) lack of plumbing facilities.

Summary of Findings from Appendix Table 14.

The percent of unemployment, children in poverty, children in single-parent households, suicides, firearm fatalities, juvenile arrests were greater in Guernsey County compared to Ohio and United States. Third graders in Guernsey County did not perform at grade level based on their math standardized test scores. The median household income in Guernsey County was lower compared to Ohio and United States.

Appendix Table 15. Summary of Top 15 Leading Causes of Death, Guernsey County versus Ohio (2022 Online State Health Assessment) (Ohio Department of Health, 2022).

Leading Causes of Death	Data Years	Guernsey County	Ohio	United States
Heart Disease Annual age-adjusted mortality rates due to heart disease, per 100,000 population.	2017	242.6	186.1	165.0
	2018	213.7	191.7	163.6

Multiple Myeloma Incidence Rates (New Cases) Average annual age-adjusted incidence rates per 100,000 population.	2016-2020	5.4 per 100,000 people	6.3 per 100,000 people	7.1 per 100,000 people
Multiple Myeloma Mortality Rates (Deaths) Average annual age-adjusted mortality rates per 100,000 population.	2016-2020	No data	3.4 per 100,000 people	3.1 per 100,000 people
Non-Hodgkin Lymphoma Incidence Rates (New Cases) Average annual age-adjusted incidence rates per 100,000 population.	2016-2020	25.5 per 100,000 people	19 per 100,000 people	18.7 per 100,000 people
Non-Hodgkin Lymphoma Mortality Rates (Deaths) Average annual age-adjusted mortality rates per 100,000 population.	2016-2020	8.6 per 100,000 people	5.7 per 100,000 people	5.1 per 100,000 people

Continuation of Appendix Table 16. Summary of Cancer Data, Guernsey County versus Ohio, and United States (Ohio Department of Health, 2023).

	Data Years	Guernsey County	Ohio	United States
Oral Cavity and Pharyngeal Cancer Incidence Rates (New Cases) Average annual age-adjusted incidence rates per 100,000 population.	2016-2020	14.6 per 100,000 people	12.6 per 100,000 people	11.4 per 100,000 people
Oral Cavity and Pharyngeal Cancer Mortality Rates (Deaths) Average annual age-adjusted mortality rates per 100,000 population.	2016-2020	5.5 per 100,000 people	2.8 per 100,000 people	2.5 per 100,000 people
Ovarian Cancer Incidence Rates (New Cases) Average annual age-adjusted incidence rates per 100,000 population.	2016-2020	6.3 per 100,000 people	9.6 per 100,000 people	10.3 per 100,000 people
Ovarian Cancer Mortality Rates (Deaths) Average annual age-adjusted mortality rates per 100,000 population.	2016-2020	No data	6.3 per 100,000 people	6.3 per 100,000 people
Pancreatic Cancer Incidence Rates (New Cases) Average annual age-adjusted incidence rates per 100,000 population.	2016-2020	11.4 per 100,000 people	13.7 per 100,000 people	13.3 per 100,000 people
Pancreatic Cancer Mortality Rates (Deaths) Average annual age-adjusted mortality rates per 100,000 population.	2016-2020	9.5 per 100,000 people	12.1 per 100,000 people	11.1 per 100,000 people
Prostate Cancer Incidence Rates (New Cases) Average annual age-adjusted incidence rates per 100,000 population.	2016-2020	105.6 per 100,000 people	114.1 per 100,000 people	113.4 per 100,000 people
Prostate Cancer Mortality Rates (Deaths) Average annual age-adjusted mortality rates per 100,000 population.	2016-2020	18.7 per 100,000 people	19.3 per 100,000 people	18.8 per 100,000 people

Continuation of Appendix Table 16. Summary of Cancer Data, Guernsey County versus Ohio, and United States (Ohio Department of Health, 2023).

	Data Years	Guernsey County	Ohio	United States
Stomach Cancer Incidence Rates (New Cases) Average annual age-adjusted incidence rates per 100,000 population.	2016-2020	7.5 per 100,000 people	5.7 per 100,000 people	6.9 per 100,000 people
Stomach Cancer Mortality Rates (Deaths) Average annual age-adjusted mortality rates per 100,000 population.	2016-2020	No data	2.3 per 100,000 people	2.8 per 100,000 people
Testicular Cancer Incidence Rates (New Cases) Average annual age-adjusted incidence rates per 100,000 population.	2016-2020	No data	5.7 per 100,000 people	6 per 100,000 people
Testicular Cancer Mortality Rates (Deaths) Average annual age-adjusted mortality rates per 100,000 population.	2016-2020	No data	0.3 per 100,000 people	0.3 per 100,000 people
Thyroid Cancer Incidence Rates (New Cases) Average annual age-adjusted incidence rates per 100,000 population.	2016-2020	14.9 per 100,000 people	14.7 per 100,000 people	13.9 per 100,000 people
Thyroid Cancer Mortality Rates (Deaths) Average annual age-adjusted mortality rates per 100,000 population	2016-2020	No data	0.5 per 100,000 people	0.5 per 100,000 people
Uterine Cancer Incidence Rates (New Cases) Average annual age-adjusted incidence rates per 100,000 population.	2016-2020	45.5 per 100,000 people	30.9 per 100,000 people	27.6 per 100,000 people
Uterine Cancer Mortality Rates (Deaths) Average annual age-adjusted mortality rates per 100,000 population.	2016-2020	No data	5.3 per 100,000 people	5.1 per 100,000 people

Summary of Findings from Appendix Table 16.

Cancer Cases and Deaths in Ohio (2016-2020) – Cancer is the second leading cause of death in Ohio. Cancer accounts for 1 in 5 deaths in Ohio. Four out of 10 people in Ohio will be diagnosed with cancer during their lifetime.

New Invasive Cancer Cases in Guernsey County (2016-2020) – On average, 269 new invasive cancer cases per year were diagnosed among Guernsey County residents. The top 5 new invasive cancer cases in Guernsey County were lung and bronchus cancer, prostate cancer, colon and rectum cancer, breast (female), and bladder. These top five cancers represented 56% of all new invasive cancer cases. The cancer incidence rate (new cases) for all sites/types of cancer in Guernsey County was higher compared to Ohio and United States rate. Males in Guernsey County, Ohio and U.S. had slightly higher cancer incidence rates (based on new cancer cases) compared to females. Whites have higher cancer incidence rates compared to Blacks.

Cancer Deaths in Guernsey County (2016-2020) – On average, 104 cancer deaths per year were diagnosed among Guernsey County residents. The top 5 leading causes of cancer death in Guernsey County were lung and bronchus cancer, colon and rectum cancer, pancreatic cancer, non-Hodgkin's lymphoma, and prostate cancer. These top 5 causes of cancer deaths represented 57% of all cancer deaths. The cancer death rate for all sites/types of cancer in Guernsey County was higher compared to Ohio and United States rates. Males in Guernsey County, Ohio and United States had higher cancer death rates compared to females. There were no marked differences in death rates between Whites and Blacks in Ohio and United States. There is no data on cancer death rates among Blacks in Guernsey County.

Appendix Table 17. Summary Data on Recommended Cancer Screenings Tests in Guernsey County compared to Ohio and United States (Ohio Department of Health, 2023).

Cancer Screenings	Data Years	Guernsey County	Ohio	United States
Pap Test in the past three years, women ages 21-65.	2018-2020	75%	77.3%	78.7%
Colorectal Cancer screening, ages 50-75.	2018-2020	75%	70.2%	70.8%
Mammogram in the past two years, women ages 50-74.	2018-2020	80.4%	77.9%	78.6%

Summary of Findings from Appendix Table 17.

In 2018-2020, the percent of Pap testing in Guernsey County was similar to Ohio and United States. The percent of colorectal cancer screening, and mammograms in Guernsey County were slightly higher in Guernsey County compared to Ohio and United States.

Appendix Table 18. Summary Data on Prevalence of Modifiable Risk Factors of Developing Cancer in Guernsey County compared to Ohio and United States (Ohio Department of Health, 2023).

Modifiable Risk factors of Developing Cancer	Data Years	Pickaway County	Ohio	United States
Current Smoker	2020	27.7%	20.2%	16%
Obese	2020	38.2%	35.8%	32%
Physically Inactive	2020	29.5%	23.5%	22%
Excessive Drinking	2020	20%	19%	19%

Summary of Findings from Appendix Table 18.

In 2020, the prevalence rates of smoking, obesity, lack of physical activity and excessive drinking were slightly higher in Guernsey County compared to Ohio and United States. Addressing these cancer-related modifiable risk factors in Guernsey County could reduce cancer deaths.

Appendix C. Summary of Input from Persons Who Represent the Broad Interests of the Community Served

Allwell Behavioral Health Services

- **Representatives have knowledge and skills in public health:** Yes
- **Description of the medically underserved, low-income or minority populations represented by the organization:** Serves underserved persons with mental and behavioral health care services regardless of ability to pay.
- **Inputs:**
 - + Review of Guernsey County demographics, health, and health-related publicly available data that was summarized by OhioHealth.
 - + Identification of significant health needs in Guernsey County based on data and experiences in serving patients and/or clients.
 - + Prioritization of significant health needs in Guernsey County.
 - + Determination of alignment of OhioHealth Southeastern Medical Center with Ohio's 2020-2022 State Health Improvement Plan (SHIP).
- **Time frame of inputs:** July 16, 2024 to August 14, 2024
- **Website:** <https://www.allwell.org/>
- **Mission of organization:** “Our mission is to help people feel better, think more clearly, make good decisions and have healthy relationships.”
- **Examples of programs and services** (Allwell Behavioral Health Services, 2024):
 - + Crisis services
 - + Counseling and therapy
 - + Primary care services
 - + Psychiatric Medication Management
 - + Case management
 - + Evaluations

Area Agency on Aging Region 9

- **Representatives have knowledge and skills in public health:** Yes
- **Description of the medically underserved, low-income or minority populations represented by the organization:** Serves older adults aged 55 and up in Guernsey, Belmont, Carroll, Coshocton, Harrison, Holmes, Jefferson, Muskingum, and Tuscarawas Counties.
- **Inputs:**
 - + Review of Guernsey County demographics, health, and health-related publicly available data that was summarized by OhioHealth.
 - + Identification of significant health needs in Guernsey County based on data and experiences in serving patients and/or clients.
 - + Prioritization of significant health needs in Guernsey County.
 - + Determination of alignment of OhioHealth Southeastern Medical Center with Ohio's 2020-2022 State Health Improvement Plan (SHIP).
- **Time frame of inputs:** July 16, 2024 to August 14, 2024
- **Website:** <https://aaa9.org/about-aaa9/>
- **Mission of organization:** "We work with people, communities, and organizations to help older adults and people with disabilities live independently and enjoy the highest quality of life possible."
- **Examples of programs and services** (Area Agency on Aging Region 9, Inc., 2023):

+ Adult Protective Services	+ American Electric Power (AEP) Neighbor to Neighbor Program
+ Assisted Living	+ Ohio Home Care Waiver
+ Care Coordination	+ PASSPORT Medicaid waiver program
+ Caregiver Support and Education	+ Pre-Admission Review
+ Home Energy Assistance Program (HEAP)	+ Prescription Drug Assistance
+ Home Choice	+ Specialized recovery Services Program
+ Long-Term Care Consultation	+ Senior Farmers' Market Nutrition Program
+ Access to the Long-Term Care Ombudsman	+ Criminal Background Checks
+ Caregiver Program	+ Chronic Disease Self-Management Program
+ Ohio Home Care Waiver	+ Specialized Recovery Services Program

Cambridge-Guernsey County Health Department

- **Representatives have knowledge and skills in public health:** Yes
- **Description of the medically underserved, low-income or minority populations represented by the organization:** Serves citizens of Guernsey County with public health services.
- **Inputs:**
 - + Review of Guernsey County demographics, health, and health-related publicly available data that was summarized by OhioHealth.
 - + Identification of significant health needs in Guernsey County based on data and experiences in serving patients and/or clients.
 - + Prioritization of significant health needs in Guernsey County.
 - + Determination of alignment of OhioHealth Southeastern Medical Center with Ohio's 2020-2022 State Health Improvement Plan (SHIP).
- **Time frame of inputs:** July 16, 2024 to August 14, 2024.
- **Website:** <https://www.guernseycountyhealthdepartment.org/>
- **Mission of organization:** "To improve quality of life for Guernsey County by promoting health, preventing disease, and assuring a safe environment."
- **Examples of programs and services** (Cambridge-Guernsey County Health Department, 2024):
 - + Walk-In Nursing Services
 - + Inspections
 - + Women, Infants and Children (WIC)
 - + Immunizations
 - + Cribs for Kids
 - + Healthy Mom, Healthy Babies
 - + Emergency preparedness
 - + Food recalls
 - + Vital statistics
 - + Community planning

Guernsey County Board of Developmental Disabilities

- **Representatives have knowledge and skills in public health:** Yes
- **Description of the medically underserved, low-income or minority populations represented by the organization:** Serves persons with disabilities and their families from Guernsey County.
- **Inputs:**
 - + Review of Guernsey County demographics, health, and health-related publicly available data that was summarized by OhioHealth.
 - + Identification of significant health needs in Guernsey County based on data and experiences in serving patients and/or clients.
 - + Prioritization of significant health needs in Guernsey County.
 - + Determination of alignment of OhioHealth Southeastern Medical Center with Ohio's 2020-2022 State Health Improvement Plan (SHIP).
- **Time frame of inputs:** July 16, 2024 to August 14, 2024
- **Website:** <https://www.guernseycountydd.org/>
- **Mission of organization:** “Ensure quality services that enhance the lives of individuals through effective use of available resources.”
- **Examples of programs and services** (Guernsey County, 2024):
 - + **Early intervention** – community-based service that provides family centered programs and services for children, birth to three years of age, and their families.
 - + **Services for school-age children ages 6 to 16** – include coordination of mental health services, behavioral health; recreational activities; respite care; and summer camps.

OhioHealth Southeastern Medical Center and OhioHealth

- **Representatives have knowledge and skills in public health:** Yes
- **Description of the medically underserved, low-income or minority populations represented by the organization:** Serves all people regardless of ability to pay.
- + **Inputs:**
 - + Review of Guernsey County demographics, health, and health-related publicly available data that was summarized by OhioHealth.
 - + Identification of significant health needs in Guernsey County based on data and experiences in serving patients and/or clients.
 - + Prioritization of significant health needs in Guernsey County.
 - + Determination of alignment of OhioHealth Southeastern Medical Center with Ohio's 2020-2022 State Health Improvement Plan (SHIP).
 - + Hosting and facilitation of the public meeting on August 14, 2024.
- **Time frame of inputs:** July 16, 2024 to August 14, 2024.
- **Website:** <https://www.ohiohealth.com/locations/hospitals/southeastern-medical-center>
- **Mission of organization:** "To improve the health of those we serve."
- **Examples of programs and services (OhioHealth 2015-2024):**

+ Cancer care	+ Pain management
+ Emergency and trauma	+ Podiatry
+ Heart and vascular services	+ Primary care
+ Imaging and radiology	+ Rehabilitation and therapy
+ Laboratory services	+ Sleep disorders
+ Maternity care	+ Sports medicine
+ Neuroscience	+ Urology
+ Orthopedics	+ Wound care

Muskingum Valley Health Centers

- **Representatives have knowledge and skills in public health:** Yes
- **Description of the medically underserved, low-income or minority populations represented by the organization:** Serves all people regardless of ability to pay.
- + **Inputs:**
 - + Review of Guernsey County demographics, health, and health-related publicly available data that was summarized by OhioHealth.
 - + Identification of significant health needs in Guernsey County based on data and experiences in serving patients and/or clients.
 - + Prioritization of significant health needs in Guernsey County.
 - + Determination of alignment of OhioHealth Southeastern Medical Center with Ohio's 2020-2022 State Health Improvement Plan (SHIP).
 - + Hosting and facilitation of the public meeting on August 14, 2024.
- **Time frame of inputs:** July 16, 2024 to August 14, 2024.
- **Website:** <https://www.mvhccares.org/>
- **Mission of organization:** To provide affordable, accessible, and quality health care.
- **Examples of programs and services**

+ Adult health	+ Pharmacy services
+ Acute and chronic disease management	+ Mobile Health
+ Women's health	+ Specialty care services, including disease management, rheumatology, dermatology, and specialty pharmacy services
+ Pediatric medical home	+ Behavioral health
+ Podiatry (foot and ankle care)	+ Social determinants of health
+ Dental care	+ Telehealth
+ Addiction services	+ School Health programs
+ Urgent care	+ Transportation services

Guernsey County Senior Citizens Center, Inc.

- **Representatives have knowledge and skills in public health:** Yes
- **Description of the medically underserved, low-income or minority populations represented by the organization:** Serves older adults in Guernsey County.
- + **Inputs:**
 - + Review of Guernsey County demographics, health, and health-related publicly available data that was summarized by OhioHealth.
 - + Identification of significant health needs in Guernsey County based on data and experiences in serving patients and/or clients.
 - + Prioritization of significant health needs in Guernsey County.
 - + Determination of alignment of OhioHealth Southeastern Medical Center with Ohio's 2020-2022 State Health Improvement Plan (SHIP).
 - + Hosting and facilitation of the public meeting on August 14, 2024.
- **Time frame of inputs:** July 16, 2024 to August 14, 2024.
- **Website:** <https://guernseysenior.org/>
- **Mission of organization:** Serves older adults aged 60 and above in Guernsey County
- **Examples of programs and services (Guernsey County Senior Citizens Center, Inc., n.d.):**
 - + Homemaking
 - + Outreach and information
 - + Legal
 - + Nutrition
 - + Telephone resource
 - + Transportation

Village of Caldwell

- **Representatives have knowledge and skills in public health:** Yes
- **Description of the medically underserved, low-income or minority populations represented by the organization:** Serves persons in the Village of Caldwell.
- + **Inputs:**
 - + Review of Guernsey County demographics, health, and health-related publicly available data that was summarized by OhioHealth.
 - + Identification of significant health needs in Guernsey County based on data and experiences in serving patients and/or clients.
 - + Prioritization of significant health needs in Guernsey County.
 - + Determination of alignment of OhioHealth Southeastern Medical Center with Ohio's 2020-2022 State Health Improvement Plan (SHIP).
- **Time frame of inputs:** July 16, 2024 to August 14, 2024.
- **Website:** <https://caldwellohio.org/>
- **Mission of organization:** Provide government services for citizens of the Village of Caldwell, Ohio.
- **Examples of programs and services (Guernsey County Senior Citizens Center, Inc., n.d.):**

- + **Inputs:**
 - + Review of Guernsey County demographics, health, and health-related publicly available data that was summarized by OhioHealth.
 - + Identification of significant health needs in Guernsey County based on data and experiences in serving patients and/or clients.
 - + Prioritization of significant health needs in Guernsey County.
 - + Determination of alignment of OhioHealth Southeastern Medical Center with Ohio's 2020-2022 State Health Improvement Plan (SHIP).
- + **Time frame of inputs:** July 16, 2024 to August 14, 2024
- + **Website:** <https://www.gozeps.org/>
- + **Mission of organization:** To provide K-12 education to children in Noble County
- + **Examples of programs and services (Noble Local Schools, 2024):**
 - + Kindergarten to 12th grade (K-12) Stem Designated Curriculum
 - + Academic Programs for students
 - + Programs and services of health of students
 - + Community partnerships

Appendix D. Documentation of Program Impacts from the Community Health Needs Assessment and Implementation Strategy Adopted in 2022 by OhioHealth Southeastern Medical Center

Priority Health Need 1: Drug Addiction and Substance Use

DASU — 1. Continue collaboration with CHOICES Anti-Drug Coalition of Guernsey County — Community stakeholders at Guernsey County set up a collaborative to address increasing rates of substance use and addiction in Guernsey County. CHOICES stands for **C**ommunity, **H**ope, **O**ppportunity, **I**ndependence, **C**hange, **E**mpowerment, **S**uccess. CHOICES aims to address: (a) prevention measures, (b) substance use risk factors, (c) protective factors, (d) strategic planning to promote healthy living, (e) implementation of community-wide initiatives. The community stakeholders who are actively involved with CHOICES Anti-Drug Coalition of Guernsey County include (but not limited to):

- **Guernsey County Sheriff's Office** — The Sheriff's Office's mission is "to enforce the laws of the State of Ohio, to deter defenses against the public in the most efficient and cost-effective manner." (Guernsey County, 2022).
- **Guernsey County Juvenile Court** — The Guernsey County Juvenile Court's mission is "to provide the care, protection, and mental and physical development of children subject to the Court's jurisdiction; to protect the welfare of the community, and to protect the public interest by treating children as persons in need of supervision, care, and rehabilitation" (Guernsey County Juvenile Court, 2022).
- **SEORMC** — has representation in the Board of CHOICES Anti-Drug Coalition of Guernsey County.
- **Cambridge-Guernsey County Health Department** — Examples of programs include Healthy Mothers, Healthy Babies.
- **AllWell Behavioral Health Solutions** — provides assessment and evaluation, community support and case management, peer support, consultation and education, counseling and therapy, overall prevention and wellness, Medication-Assisted Treatment.
- **Alcohol & Drug Services of Guernsey County** — provides substance abuse rehabilitation services including (but not limited to) approaches such as cognitive/behavioral therapy, substance abuse counseling, trauma-related counseling, and rational emotive behavioral therapy.
- **Local Law Enforcement (Cambridge Police Department)** — provides services including (but not limited to) emergency response and support services, criminal activity investigation, citywide traffic services, and improving overall community quality of life.
- **Various churches and faith congregations**

This action (DASU — 1) aligns with the State Health Improvement Plan (SHIP).

OhioHealth Southeastern Medical Center's Impacts related to DASU – 1

The CHOICES Anti-Drug Coalition of Guernsey County decided to discontinue their community efforts in May 2023. Hence the outcomes and impact related to OhioHealth Southeastern Medical Center's participation in the CHOICES Coalition are limited. In lieu of reporting the impacts of the CHOICES Anti-Drug Coalition of Guernsey County, OhioHealth is reporting the number and percent of patients served in the inpatient, Emergency Department, ambulatory and outpatient settings who have diagnoses of Mental, Behavioral and Neurodevelopmental Disorders (ICD-10-CM: F01-F99).

The CHOICES Anti-Drug Coalition tackled the following: (a) education and awareness about opiates and non-opiates; (b) distribution of naloxone to prevent death from opiate overdose; (c) partnerships with local school districts to educate school-aged children and adolescents about the negative impacts of substance use; and (d) distribution of medication collection bags to farmers and rural residents so they could safely get rid of expired or unused prescription medications.

The OhioHealth Southeastern Medical Center routinely provides health care services to patients with diagnoses of Mental, Behavioral and Neurodevelopmental Disorders (ICD-10-CM: F01-F99) (**Appendix Table 19**). When necessary, patients with these diagnoses are referred to community agencies that provide higher levels of mental and behavioral health care services to ensure well-coordinated care.

The count and percent of patients served by the OhioHealth Southeastern Medical Center inpatient, Emergency Department, OhioHealth ambulatory facilities or OhioHealth Physician Group outpatient clinics are shown in **Appendix Table 20 and Appendix Table 21** in Fiscal Years 2023 and 2024, respectively.

OhioHealth Southeastern Medical Center's Alignment with Ohio's 2020-2022 State Health Improvement Plan (SHIP)

Appendix Table 21 shows summary of data that presents various measures that affects drug abuse and substance use in Guernsey County and Noble County versus Ohio and United States.

Appendix Table 19. Summary of Mental, Behavioral, and Neurodevelopmental Disorders ICD-10 diagnoses codes and their descriptions.

ICD-10 CM Codes	Description
F01-F09	Mental disorders due to known physiological conditions (for example, dementia; amnesia; delirium; personality and behavioral disorders).
F10-F19	Mental and behavioral disorders due to psychoactive substance use (for example, alcohol disorder; opioid disorders; Cannabis disorders; sedative, hypnotic or anxiolytic disorders; cocaine disorders; stimulant disorders; hallucinogen disorders; nicotine dependence; inhalant disorders; other psychoactive substance disorders).
F20-F29	Schizophrenia, schizotypal, schizoaffective, delusional, and other non-mood psychotic disorders.
F30-F39	Mood (affective) disorders (for example, manic episode; bipolar disorder; depressive episode; major depressive disorder; persistent mood (affective) disorder; unspecified mood (affective) disorder).
F40-F48	Anxiety, dissociative, stress-related, somatoform and other nonpsychotic mental disorders (for example, phobic anxiety disorders; other anxiety disorders; obsessive-compulsive disorder; reaction to severe stress, and adjustment disorders; dissociative and conversion disorders; somatoform disorders; other nonpsychotic mental disorders).
F50-F59	Behavioral syndromes associated with physiological disturbances and physical factors (for example, eating disorders; sleep disorders; sexual dysfunction; mental and behavioral disorders associated with puerperium; abuse of non-psychoactive substances).
F60-F69	Disorders of adult personality and behavior (for example, personality disorders; impulse disorders; gender identity disorders; paraphilias; sexual disorders; adult personality and behavior disorders).
F70-F79	Intellectual disabilities (for example, mild, moderate, severe, and profound intellectual disabilities).
F80-F89	Pervasive and specific developmental disorders (for example, speech disorders; language disorders; scholastic skills disorders; motor function developmental disorders; pervasive developmental disorders; other disorders of psychological development).
F90-F98	Behavioral and emotional disorders with onset usually occurring in childhood and adolescence (for example, attention-deficit hyperactivity disorders (ADHD); conduct disorders; emotional disorders; disorders of social functioning; Tic disorder).
F99	Unspecified mental disorder.

Appendix Table 20. Summary of patients with Mental, Behavioral, and Neurodevelopmental disorders (ICD-10-CM: F10-F99) who were served by the OhioHealth Southeastern Medical Center Emergency Department, Inpatient, and Ambulatory Facilities; OhioHealth Physician Group; and OhioHealth Employer Solutions in Fiscal Year 2023 (7/1/2022 to 6/30/2023).

DASU — 2. Continue collaboration with Noble County CARES (Community Access, Resources, Education, and Services) — Noble County CARES is a regional coalition of hospital, health centers, mental health, and addiction agencies, in Southeast Ohio to provide community access, resources, education, and services to all community members in Noble County, Guernsey County, and southeast Ohio counties. The Noble County CARES community partners include (but not limited to):

- **Noble County Health Department** — Collaboration with AllWell to provide substance use and addiction resources within the community, provides education, awareness, and prevention to school-aged children in both schools located in Noble County.
- **AllWell Behavioral Health Services** — Provides assessment and evaluation, community support and case management, peer support, consultation and education, counseling and therapy, overall prevention and wellness, Medication-Assisted Treatment.
- **Noble County Board of Developmental Disabilities** — programs and services including supports for children and adults, transition planning, and Employment first.
- **Noble County Veteran's Office** — Provides temporary financial assistance and transportation to Veterans.
- **Noble County Family and Children First Council** — provides substance use prevention awareness for students through education curriculum and planned educational activities.
- **Local Law Enforcement** — committed to excellence in law enforcement and are dedicated to the people, traditions, and diversity of Noble County.
- **Caldwell Church of Nazarene** — Pastor represents faith-based programs within the community.
- **Noble County Sheriff** — leads Noble County Law Enforcement by providing services with understanding, compassion, and integrity.
- **Noble County probation officers** — Implements and tracks compliance with court-ordered services, terms, and programs, including substance abuse treatment. Administers drug and alcohol testing on probationers.
- **Noble County Family Violence Council** — “provides and promotes a collaborative effort to arrange non-discriminatory services in areas of advocacy, support, prevention, and education for victims of domestic violence, their families, and the Noble County Community at large.”
- **Ohio State University Extension** — provides services including 4-H development, agriculture and natural resources, community development, and family and consumer sciences.

This action (DASU — 2) aligns with the State Health Improvement Plan (SHIP). See Table 3 for details.

Impacts and Outcomes of the OhioHealth Southeastern Medical Center related to Continue collaboration with Noble County CARES (Community Access, Resources, Education, and Services) (DASU – 2).

Appendix Table 23 summarizes the OhioHealth Southeastern Medical Center's participation in Noble County CARES. Focus areas of Noble County CARES Coalition include but not limited to drug prevention community education, engagement and empowerment to continue to promote equitable access to community programs and services, hence promoting healthy and well communities. For example, representatives of the Noble CARES Coalition have volunteered in schools to do substance use prevention education, engage businesses in Noble County regarding suicide awareness and prevention; and conducted a mock crash site ahead of prom nights.

Appendix Table 24 summarizes data that are pertinent to the alignment of OhioHealth Southeastern Medical Center to Ohio's 2020-2022 State Health Improvement Plan (SHIP).

Appendix Table 23. Summary of OhioHealth Southeastern Medical Center continuing engagement with the Noble CARES Coalition. Premature death Years of potential life lost before age 75 per 100,000 population (age-adjusted)	2019-2021	11,800 years of life lost to deaths before age 75, per 100,000 people	7,800 years of life lost to deaths before age 75, per 100,000 people	9,400 years of life lost to deaths before age 75, per 100,000 people	8,000 years of life lost to deaths before age 75, per 100,000 people
Poor or fair health Percent of adults reporting fair or poor health (age-adjusted).	2021	19%	19%	16%	14%
Poor physical health days Average number of physically unhealthy days reported in past 30 days (age-adjusted).	2021	4.3 poor physical health days in past 30 days	4.1 poor physical health days in past 30 days	3.6 poor physical health days in past 30 days	3.3 poor physical health days in past 30 days
Poor mental health days Average number of mentally unhealthy days reported in past 30 days (age-adjusted).	2021	5.3 poor mental health days in past 30 days	5.3 poor mental health days in past 30 days	5.5 poor mental health days in past 30 days	4.8 poor mental health days in past 30 days
Life expectancy Number of years people are expected to live	2019-2021	73.2 years	81.1 years	75.6 years	77.6 years
Premature age-adjusted mortality Number of deaths among residents under age 75 per 100,000 population (age-adjusted).	2019-2021	560 deaths per 100,000 people under age 75	330 deaths per 100,000 people under age 75	450 deaths per 100,000 people under age 75	390 deaths per 100,000 people under age 75

Continuation of Appendix Table 24. OhioHealth Southeastern Medical Center's Alignment with Ohio's 2020-2022 State Health Improvement Plan (SHIP) related to mental health and addiction (County Health Rankings, 2024).

Measure	Years	Guernsey County	Noble County	Ohio	United States
Frequent physical distress Percent of adults reporting 14 or more days of poor physical health per month (age-adjusted).	2021	14% of adults reported 14 or more days of poor physical health of the last 30 days.	13% of adults reported 14 or more days of poor physical health of the last 30 days.	11% of adults reported 14 or more days of poor physical health of the last 30 days	10% of adults reported 14 or more days of poor physical health of the last 30 days.
Frequent mental distress Percent of adults reporting 14 or more days of poor mental health per month (age-adjusted).	2021	19% of adults reported 14 or more days of poor mental health of the last 30 days.	18% of adults reported 14 or more days of poor mental health of the last 30 days.	17% of adults reported 14 or more days of poor mental health of the last 30 days.	15% of adults reported 14 or more days of poor mental health of the last 30 days.
Adult smoking Percent of adults who are current smokers (age-adjusted).	2021	24% of adults are current cigarette smokers.	25% of adults are current cigarette smokers.	19% of adults are current cigarette smokers.	15% of adults are current cigarette smokers.
Alcohol-impaired driving deaths Percent of driving deaths with alcohol involvement.	2017-2021	34% of motor vehicle crash deaths involved alcohol.	31% of motor vehicle crash deaths involved alcohol.	32% of motor vehicle crash deaths involved alcohol.	26% of motor vehicle crash deaths involved alcohol.
Mental health providers Ratio of population to mental health providers.	2023	380 people to 1 mental health provider	840 people to 1 mental health provider	310 people to 1 mental health provider	320 people to 1 mental health provider
Children in single-parent households Percent of children that live in a household headed by a single parent.	2018-2022	28% of children lived in a household headed by a single parent	20% of children lived in a household headed by a single parent	26% of children lived in a household headed by a single parent	25% of children lived in a household headed by a single parent

Continuation of Appendix Table 24. OhioHealth Southeastern Medical Center's Alignment with Ohio's 2020-2022 State Health Improvement Plan (SHIP) related to mental health and addiction (County Health Rankings, 2024).

Measure	Years	Guernsey County	Noble County	Ohio	United States
Injury deaths Number of deaths due to injury per 100,000 population.	2017-2021	100 deaths due to homicides, suicides, motor vehicle crashes and poisonings per 100,000 people	68 deaths due to homicides, suicides, motor vehicle crashes and poisonings per 100,000 people	99 deaths due to homicides, suicides, motor vehicle crashes and poisonings per 100,000 people	80 deaths due to homicides, suicides, motor vehicle crashes and poisonings per 100,000 people
Homicides Number of deaths due to homicide per 100,000 people.	2015-2021	4 homicide deaths per 100,000 people	No data	7 homicide deaths per 100,000 people	6 homicide deaths per 100,000 people
Suicides Number of deaths due to suicide per 100,000 population (age-adjusted).	2017-2021	18 suicides per 100,000 people	No data	15 suicides per 100,000 people	14 suicides per 100,000 people
Firearm fatalities Number of deaths due to firearms per 100,000 population.	2017-2021	15 firearm deaths per 100,000 people	No data	14 firearm deaths per 100,000 people	13 firearm deaths per 100,000 people
Juvenile arrests Rate of delinquency cases per 1,000 juveniles.	2021	38 juvenile arrests per 1,000 juveniles	15 juvenile arrests per 1,000 juveniles	22 juvenile arrests per 1,000 juveniles	No data

DASU — 3. Continue Superior Med Family Practice services — Superior Med Family Practice will continue to assess, diagnose, and refer patients to Southeastern Ohio Counseling Center and Cedar Ridge Behavioral Health Solutions, and other community resources.

- **Southeastern Ohio Counseling Center** — provides services such as counseling focused on addiction and recovery, substance use treatment, and case management. (Southeastern Ohio Counseling Center, 2022).
- **Cedar Ridge Behavioral Health Solutions** — provides services such as detoxification services, residential services, outpatient addiction and recovery services, and medication assisted treatment (Cedar Ridge Behavioral Health Solutions, 2022).

OhioHealth Southeastern Medical Center's Impacts and Outcomes related to DASU – 3.

DASU – 3.1. OhioHealth Physician Group Pulmonology/Sleep Disorders

The OhioHealth Physician Group Pulmonology/Sleep Disorders is located at 1335 Clark Street, Cambridge, Ohio 43725. The Clinic was formerly referred to as Dr Eyad Mahayri, MD, FCCP, FAASM. **Appendix Table 25 and 26** show the number and percent of patient encounters with specific primary diagnoses in Fiscal Year 2023 and 2024, respectively. **Appendix Table 27 and 28** shows the number and percent of patient encounters for primary diagnoses groups diagnoses in Fiscal Year 2023 and 2024, respectively.

The **Appendix Tables 25 to 28** demonstrate that the OhioHealth Physician Group Pulmonology/Sleep Disorders take care of patients with various disease diagnoses, hence improving access to care in Guernsey and Noble Counties, Ohio. These diseases may have associated mental and behavioral health disorders that the OhioHealth providers address when necessary, during clinic visits. Through the comprehensive services of the OhioHealth Physician Group Pulmonology and Sleep Disorders, patients' medication regimen and potential substance use, or drug abuse are also identified, and appropriate community referrals were made when necessary.

DASU – 3.2. OhioHealth Physician Group Primary Care Cambridge

The OhioHealth Physician Group Primary Care Cambridge is located at 1210 Clark Street, Cambridge, Ohio. **Appendix Tables 29 to 30** show the number and percent of patient encounters with specific primary diagnoses in Fiscal Years 2023 and 2024, respectively. **Appendix Tables 31 to 32** show the number and percent of patient encounters with diagnoses groups in Fiscal Years 2023 and 2024, respectively.

Appendix Tables 29 to 32 demonstrate that the OhioHealth Physician Group Primary Care Cambridge take care of patients with various disease diagnoses, including mental, behavioral, and neurodevelopmental disorders. The OhioHealth Physician Group Primary Care Cambridge serves as a medical home for residents of Guernsey County, Noble County, and surrounding Counties.

DASU – 3.3. OhioHealth Physician Group Primary Care Caldwell

The OhioHealth Physician Group Primary Care Caldwell is located at 18125 Woodfield Road, Caldwell, Ohio 43724. The Clinic was formerly called Superior Med Family Practice Caldwell. **Appendix Tables 33 to 34** show the number and percent of patient encounters involving diagnoses of Mental, Behavioral and Neurodevelopmental Disorders (F01-F99) in Fiscal Years 2023 and 2024, respectively. **Appendix Tables 35 and 36** show the number and percent of patient encounters with various diagnoses groups during Fiscal Years 2023 and 2024, respectively.

DASU – 3.4. OhioHealth Physician Group Sports Medicine and Primary Care

The OhioHealth Physician Group Sports Medicine and Primary Care is located at 10095 Brick Church Road, Cambridge, Ohio 43725. **Appendix Tables 37 and 38** show the number and percent of patient encounters from various diagnoses groups including Mental, Behavioral and Neurodevelopmental Disorders (F01-F99) in Fiscal Years 2023 and 2024, respectively.

DASU – 3.5. OhioHealth Physician Group Orthopedic Surgery

The OhioHealth Physician Group Orthopedic Surgery is located at 1230 Clark Street, Suite A, Cambridge, Ohio 43725. **Appendix Tables 39 to 40** show the number and percent of patient encounters for specific diagnoses of patients in Fiscal Year 2023 and 2024, respectively. **Appendix Tables 41 to 42** show the number and percent of patient encounters for various diagnoses groups during Fiscal Years 2023 and 2024, respectively.

DASU – 3.6. OhioHealth Physician Group Podiatric Surgery

The OhioHealth Physician Group Podiatric Surgery is located at 1230 Clark Street, Suite B, Cambridge, Ohio 43725. **Appendix Tables 43 to 44** show the number and percent of patient encounters for specific diagnoses of patients in Fiscal Year 2023 and 2024. **Appendix Tables 45 to 46** show the number and percent of patient encounters for various diagnoses groups of patients served in Fiscal Year 2023 and 2024, respectively. It is noteworthy that nicotine dependence is one of the diagnoses with at least 150 patient encounters.

DASU – 3.7. OhioHealth Physician Group Heart and Vascular Clinic

The OhioHealth Physician Group Heart and Vascular Clinic in Cambridge is located at 1325 Clark Street, Cambridge, Ohio 43725. **Appendix tables 47 and 48** show the count and percent of patients with specific diagnoses categorized as Mental, Behavioral and Neurodevelopmental Disorders (F01-F99) among patients served in Fiscal Year 2023 and 2024, respectively. **Appendix Tables 49 and 50** show the count and percent of patients of top diagnoses among patients served in Fiscal Year 2023 and 2024, respectively.

Appendix Table 25. Summary of specific primary diagnoses of patients served at the OhioHealth Physician Group Pulmonology/Sleep Disorders in Fiscal Year 2023 (7/1/2022 to 6/30/2023). This Clinic was formerly referred as Dr. Eyad Mahayri, MD, FCCP, FAASM. The Clinic is located at 1335 Clark Street, Cambridge, Ohio 43725. The Clinic served 1,236 unique patients in Fiscal Year 2023.

Specific Primary Diagnoses	Count of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023)	Percent of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023) (N=4,565 encounters)
Chronic Obstructive Pulmonary Disease (COPD)	1551 patient encounters	33.98%
Sleep apnea and other sleep disorders	1072 patient encounters	23.48%
Hypertension	216 patient encounters	4.73%
Nicotine dependence or cigarette use	266 patient encounters	5.83%
Asthma	93 patient encounters	2.04%
Heart disease	73 patient encounters	1.60%
Obesity	63 patient encounters	1.38%
Cancer	30 patient encounters	0.66%
Diabetes	16 patient encounters	0.35%
COVID-19	15 patient encounters	0.33%
High cholesterol	4 patient encounters	0.09%
Alzheimer's Disease	3 patient encounters	0.07%
Generalized Anxiety Disorder	2 patient encounters	0.04%
Depression	1 patient encounter	0.02%
Dementia	1 patient encounter	0.02%
Urinary Tract Infection	1 Patient encounter	0.02%

Appendix Table 26. Summary of specific primary diagnoses of patients served at the OhioHealth Physician Group Pulmonology/Sleep Disorders in Fiscal Year 2024 (7/1/2023 to 6/30/2024). This Clinic was formerly referred as Dr. Eyad Mahayri, MD, FCCP, FAASM Clinic. The Clinic is located at 1335 Clark Street, Cambridge, Ohio 43725. The Clinic served 1,236 unique patients in Fiscal Year 2024.

Specific Primary Diagnosis	Count of Patient Encounters (7/1/2023 to 6/30/2024)	Percent of Patient Encounters (7/1/2023 to 6/30/2024)
Chronic Obstructive Pulmonary Disease (COPD)	1620 patient encounters	34.84%
Sleep apnea and other sleep disorders	1207 patient encounters	25.96%
Signs and symptoms (for example, cough, wheezing, shortness of breath, fatigue)	377 patient encounters	8.11%
Nicotine dependence or cigarette use	235 patient encounters	5.05%
Hypertension	231 patient encounters	4.97%
Asthma	107 patient encounters	2.30%
Heart disease	83 patient encounters	1.78%
Lower respiratory infection (e.g., bronchitis, pneumonia, bronchiectasis)	75 patient encounters	1.61%
Obesity	52 patient encounters	1.12%
Neoplasms (Cancer)	29 patient encounters	0.62%
Diabetes	26 patient encounters	0.56%
COVID-19	24 patient encounters	0.52%
Allergic rhinitis and other allergies	12 patient encounters	0.26%
High cholesterol	7 patient encounters	0.15%
Cannabis abuse	4 patient encounters	0.09%
Chronic kidney disease	3 patient encounters	0.06%
Anxiety	2 patient encounters	0.04%

Continuation of Appendix Table 26. Summary of specific primary diagnoses of patients served at the OhioHealth Physician Group Pulmonology/Sleep Disorders in Fiscal Year 2024 (7/1/2023 to 6/30/2024). This Clinic was formerly referred as Dr. Eyad Mahayri, MD, FCCP, FAASM Clinic. The Clinic is located at 1335 Clark Street, Cambridge, Ohio 43725. The Clinic served 1,236 unique patients in Fiscal Year 2024.

Specific Primary Diagnosis	Count of Patient Encounters (7/1/2023 to 6/30/2024)	Percent of Patient Encounters (7/1/2023 to 6/30/2024)
Multiple sclerosis	2 patient encounters	0.04%
Dementia	1 patient encounter	0.02%
Alzheimer's Disease	1 patient encounter	0.02%

Appendix Table 27. Summary primary diagnoses groups of patients served at the OhioHealth Physician Group Pulmonology/Sleep Disorders in Fiscal Year 2023 (7/1/2022 to 6/30/2023). This Clinic was formerly referred as Dr. Eyad Mahayri, MD, FCCP, FAASM Clinic. The Clinic is located at 1335 Clark Street, Cambridge, Ohio 43725. The Clinic served 1,236 unique patients in Fiscal Year 2023.

Primary Diagnoses Groups	Count of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023)	Percent of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023)
Diseases of the respiratory system (J00-J99)	1823 patient encounters	39.93%
Diseases of the nervous system (G00-G99)	1088 patient encounters	23.83%
Symptoms, signs, and abnormal clinical and laboratory findings, not elsewhere classified (R00-R99)	694 patient encounters	15.20%
Diseases of the circulatory system (I00-I99)	327 patient encounters	7.16%
Factors influencing health status and contact with health services (Z00-Z99)	311 patient encounters	6.81%
Mental, Behavioral and Neurodevelopmental disorders (F01-F99)	149 patient encounters	3.26%
Endocrine, nutritional, and metabolic diseases (E00-E89)	30 patient encounters	0.66%
Neoplasms (C00-D49)	30 patient encounters	0.66%
Diseases of the digestive system (K00-K95)	29 patient encounters	0.64%
Diseases of the blood and blood-forming organs and certain disorders involving the immune mechanism	13 patient encounters	0.28%
Diseases of the musculoskeletal system and connective tissue (M00-M99)	5 patient encounters	0.11%
Certain infectious and parasitic diseases (A00-B99)	1 patient encounter	0.02%
Congenital malformations, deformations, and chromosomal abnormalities (Q00-Q99)	1 patient encounter	0.02%

Continuation of Appendix Table 27. Summary primary diagnoses groups of patients served at the OhioHealth Physician Group Pulmonology/Sleep Disorders in Fiscal Year 2023 (7/1/2022 to 6/30/2023). This Clinic was formerly referred as Dr. Eyad Mahayri, MD, FCCP, FAASM Clinic. The Clinic is located at 1335 Clark Street, Cambridge, Ohio 43725. The Clinic served 1,236 unique patients in Fiscal Year 2023.

Primary Diagnoses Groups	Count of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023)	Percent of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023)
Injury, poisoning and certain consequences of external causes (S00-T88)	1 patient encounter	0.02%
Diseases of the genitourinary system (N00-N99)	1 patient encounter	0.02%

Appendix Table 28. Summary primary diagnoses groups of patients served at the OhioHealth Physician Group Pulmonology/Sleep Disorders in Fiscal Year 2024 (7/1/2023 to 6/30/2024). This Clinic was formerly referred as Dr. Eyad Mahayri, MD, FCCP, FAASM Clinic. The Clinic is located at 1335 Clark Street, Cambridge, Ohio 43725. Mental, Behavioral, and Neurodevelopmental Disorders (F01-F99)	493 patient encounters	3.94%
Diseases of the genitourinary system (N00-N99)	306 patient encounters	2.45%
Diseases of the digestive system (K00-K95)	273 patient encounters	2.18%
Diseases of the nervous system (G00-G99)	181 patient encounters	1.45%
Diseases of the skin and subcutaneous tissue (L00-L99)	151 patient encounters	1.21%
Diseases of the blood, blood-forming organs, and certain disorders involving the immune mechanism (D50-D89)	142 patient encounters	1.14%
Diseases of the ear and mastoid process (H60-H95)	109 patient encounters	0.87%
Codes for special purposes (COVID-19) (U00-U85)	106 patient encounters	0.85%

Continuation of Appendix Table 31. Summary of primary diagnoses groups among patients served by the OhioHealth Physician Group Primary Care Cambridge in Fiscal Year 2023 (7/1/2022 to 6/30/2023). This OhioHealth Physician Group Clinic was previously referred to as Superior Med Primary Care. It is located at 1210 Clark Street, Cambridge, Ohio 43725. The Clinic served 1,014 unique patients in Fiscal Year 2023.

Primary Diagnoses Groups	Count of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023)	Percent of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023) (N=12,501 encounters)
Neoplasms (Cancer) (C00-D49)	103 patient encounters	0.82%
Injury, poisoning, and certain other consequences of external causes (S00-T88)	99 patient encounters	0.79%
Certain infectious and parasitic diseases (A00-B99)	83 patient encounters	0.66%
Diseases of the eye and adnexa (H00-H59)	64 patient encounters	0.51%
Congenital malformations, deformations, and chromosomal abnormalities	20 patient encounters	0.16%
Pregnancy, childbirth, and the puerperium (O00-O9A)	2 patient encounters	0.02%
Certain conditions originating in the perinatal period (P00-P96)	1 patient encounter	0.01%
External causes of morbidity (V00-Y99)	1 patient encounter	0.01%

Appendix Table 32. Summary of primary diagnoses groups among patients served by the OhioHealth Physician Group Primary Care Cambridge in Fiscal Year 2024 (7/1/2023 to 6/30/2024). This OhioHealth Physician Group Clinic was previously referred to as Superior Med Primary Care. It is located at 1210 Clark Street, Cambridge, Ohio 43725. The Clinic served 1044 unique patients in Fiscal Year 2024.

Primary Diagnoses Groups	Count of Patient Encounters in Fiscal Year 2024 (7/1/2023 to 6/30/2024)	Percent of Patient Encounters in Fiscal Year 2024 (7/1/2023 to 6/30/2024) (N=11,904 encounters)
Factors influencing health status and contact with health services (Z00-Z99)	3691 patient encounters	31.01%
Diseases of the circulatory system (I00-I99)	1926 patient encounters	16.18%
Symptoms, signs, and abnormal clinical and laboratory findings, not elsewhere classified (R00-R99)	1448 patient encounters	12.16%
Endocrine, nutritional, and metabolic diseases (E00-E89)	1329 patient encounters	11.16%
Diseases of the respiratory system (J00-J99)	1000 patient encounters	8.40%
Diseases of the musculoskeletal system and connective tissue (M00-M99)	534 patient encounters	4.49%
Mental, Behavioral, and Neurodevelopmental Disorders (F01-F99)	440 patient encounters	3.70%
Diseases of the genitourinary system (N00-N99)	292 patient encounters	2.45%
Diseases of the digestive system (K00-K95)	245 patient encounters	2.06%
Diseases of the nervous system (G00-G99)	189 patient encounters	1.59%
Diseases of the blood, blood-forming organs, and certain disorders involving the immune mechanism (D50-D89)	159 patient encounters	1.34%
Injury, poisoning, and certain other consequences of external causes (S00-T88)	133 patient encounters	1.12%
Diseases of the skin and subcutaneous tissue (L00-L99)	132 patient encounters	1.11%

The OhioHealth Physician Group Orthopedic Surgery Clinic was formerly referred to as Superior Med Orthopedics. The OhioHealth Physician Group Orthopedic Surgery is located at 1230 Clark Street, Suite A, Cambridge, Ohio 43725. The Clinic served 1,614 unique patients in Fiscal Year 2023.

Primary Diagnoses	Count of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023)	Percent of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023) (N=8,117 encounters)
Other dorsopathies	49 patient encounters	0.60%
Complications of surgical and medical care, not elsewhere classified	45 patient encounters	0.55%
Disorders of bone density and structure	30 patient encounters	0.37%
Inflammatory polyarthropathies	27 patient encounters	0.33%
Deforming dorsopathies (spine defect, scoliosis)	25 patient encounters	0.31%
Nerve, nerve root, and plexus disorders	24 patient encounters	0.30%
Chondropathies	23 patient encounters	0.28%
Infections of the skin and subcutaneous tissue	23 patient encounters	0.28%
Periprosthetic fracture around internal prosthetic joint	20 patient encounters	0.25%
Congenital malformations and deformations of the musculoskeletal system	19 patient encounters	0.23%
Other osteopathies	17 patient encounters	0.21%
Symptoms and signs involving the skin and subcutaneous tissue	13 patient encounters	0.16%
Benign neoplasms, except benign neuroendocrine tumors	12 patient encounters	0.15%
Neoplasm (Cancer)	10 patient encounters	0.12%
Injuries to the thorax	7 patient encounters	0.09%

Continuation of Appendix Table 39. Summary of specific diagnoses of patients served at the OhioHealth Physician Group Orthopedic Surgery in Fiscal Year 2023 (7/1/2022 to 6/30/2023). The OhioHealth Physician Group Orthopedic Surgery Clinic was formerly referred to as Superior Med Orthopedics. The OhioHealth Physician Group Orthopedic Surgery is located at 1230 Clark Street, Suite A, Cambridge, Ohio 43725. The Clinic served 1,614 unique patients in Fiscal Year 2023.

Primary Diagnoses	Count of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023)	Percent of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023) (N=8,117 encounters)
Disorders of muscles	7 patient encounters	0.09%
Infectious arthropathies	6 patient encounters	0.07%
Diabetes	5 patient encounters	0.06%
Chronic gout	4 patient encounters	0.05%
Injuries to the neck	4 patient encounters	0.05%
Body Mass Index (Obese)	3 patient encounters	0.04%
Symptoms and signs involving the nervous and musculoskeletal systems	3 patient encounters	0.04%
Burns and corrosions of external body surface, specified by site	3 patient encounters	0.04%
Abnormal findings on diagnostic imaging and in function studies, without diagnosis	3 patient encounters	0.04%
Contact with powered lawn mower	3 patient encounters	0.04%
Retained foreign body fragments	2 patient encounters	0.02%
Disorders of skin appendages	2 patient encounters	0.02%
Diseases of arteries, arterioles, and capillaries	2 patient encounters	0.02%
Injuries to the head	3 patient encounters	0.03%
Obesity	1 patient encounter	0.01%
Other disorders of the skin and subcutaneous tissue	1 patient encounter	0.01%

The OhioHealth Physician Group was formerly referred to as the Clinic of Joseph Davis, DPM. The Clinic is located at The 1230 Clark Street, Suite B, Cambridge, Ohio 43725. Clinic served 1406 unique patients in Fiscal Year 2023.

Primary Diagnoses Groups	Count of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023)	Percent of Patient Encounters in Fiscal Year 2023 (7/1/2022 to 6/30/2023) (N= 9731 encounters)
Diseases of the musculoskeletal system and connective tissue (M00-M99)	3437 personal encounters	35.32%
Certain infectious and parasitic diseases (A00-B99)	1352 personal encounters	13.89%
Diseases of the skin and subcutaneous tissue (L00-L99)	1065 personal encounters	10.94%
Symptoms, signs, and abnormal clinical and laboratory findings (R00-R99)	755 personal encounters	7.76%
Diseases of the circulatory system (I00-I99)	722 personal encounters	7.42%
Diseases of the nervous system (G00-G99)	714 personal encounters	7.34%
Factors influencing health status and contact with health services (Z00-Z99)	543 personal encounters	5.58%
Injury, poisoning and certain consequences of external causes (S00-T98)	451 personal encounters	4.63%
Endocrine, nutritional, and metabolic diseases (E00-E90)	309 personal encounters	3.18%
Nicotine dependence (F17)	188 personal encounters	1.93%
Congenital malformations, deformations, and chromosomal abnormalities (Q00-Q99)	119 personal encounters	1.22%
Neoplasms (C00-D48)	11 personal encounters	0.11%

Appendix Table 46. Summary of primary diagnoses groups of patients served by the OhioHealth Physician Group Podiatric Surgery in Fiscal Year 2024 (7/1/2023 to 6/30/2024). The OhioHealth Physician Group was formerly referred to as the Clinic of Joseph Davis, DPM. The Clinic is located at 1230 Clark Street, Suite B, Cambridge, Ohio 43725. The Clinic served 1547 unique patients in Fiscal Year 2024.

Primary Diagnoses Groups	Count of Patient Encounters in Fiscal Year 2024 (7/1/2023 to 6/30/2024)	Percent of Patient Encounters in Fiscal Year 2024 (7/1/2023 to 6/30/2024) (N = 11535 encounters)
Diseases of the musculoskeletal system and connective tissue (M00-M99)	4059 patient encounters	35.19%
Certain infectious and parasitic diseases (A00-B99)	1748 patient encounters	15.15%
Diseases of the skin and subcutaneous tissue (L00-L99)	1129 patient encounters	9.79%
Diseases of the circulatory system (I00-I99)	1098 patient encounters	9.52%
Diseases of the nervous system (G00-G99)	1016 patient encounters	8.81%
Symptoms, signs, and abnormal clinical and laboratory findings, not elsewhere classified (R00-R99)	672 patient encounters	5.83%
Type 2 diabetes with neuropathy (E11)	566 patient encounters	4.91%
Factors influencing health status and contact with health services (Z00-Z99)	489 patient encounters	4.24%
Injury, poisoning and certain other consequences of external causes (S00-T88)	418 patient encounters	3.62%
Nicotine dependence, cigarettes (F17)	151 patient encounters	1.31%
Congenital malformations, deformations, and chromosomal abnormalities (Q00-Q99)	108 patient encounters	0.94%
Benign neoplasms of connective and other soft tissue (D21)	11 patient encounters	0.10%
Type 1 diabetes mellitus with diabetic neuropathy (E10)	2 patient encounters	0.02%

Appendix Table 46. Summary of primary diagnoses groups of patients served by the OhioHealth Physician Group Podiatric Surgery in Fiscal Year 2024 (7/1/2023 to 6/30/2024). The OhioHealth Physician Group was formerly referred to as the Clinic of Joseph Davis, DPM. The Clinic is located at 1230 Clark Street, Suite B, Cambridge, Ohio 43725. The Clinic served 1547 unique patients in Fiscal Year 2024.

Primary Diagnoses Groups	Count of Patient Encounters in Fiscal Year 2024 (7/1/2023 to 6/30/2024)	Percent of Patient Encounters in Fiscal Year 2024 (7/1/2023 to 6/30/2024) (N = 11535 encounters)
Morbid (severe) obesity due to excess calories (E66)	1 patient encounter	0.01%
Other benign neoplasm of skin (D23)	1 patient encounter	0.01%
Certain conditions originating in the perinatal period (P00-P96)	1 patient encounter	0.01%
Endocrine, nutritional, and metabolic disorders (E00-E89)	1 patient encounter	0.01%

Appendix Table 47. Summary of Mental, Behavioral, and Neurodevelopmental Disorders (F01-F99) among patients served by the OhioHealth Physician Group Heart and Vascular in Fiscal Year 2023 (7/1/2022 to 6/30/2023). The OhioHealth Physician Group Heart and Vascular Clinic is located at 1325 Clark Street, Cambridge, Ohio 43725. The Clinic served 1596 unique patients in Fiscal Year 2023.

ICD-10 CM Codes	Description	Count of Patients Served in Fiscal Year 2023	Percent of Patients in Fiscal Year 2023 (N = 1596 unique patients)
F01-F09	Mental disorders due to known physiological conditions (for example, dementia; amnesia; delirium; personality, and behavioral disorders).	24 patients	1.50%
F10-F19	Mental and behavioral disorders due to psychoactive substance use (for example, alcohol disorder; opioid disorders; Cannabis disorders; sedative, hypnotic or anxiolytic disorders; cocaine disorders; stimulant disorders; hallucinogen disorders; nicotine dependence; inhalant disorders; and other psychoactive substance disorders).	64 patients	4%
F20-F29	Schizophrenia, schizotypal, schizoaffective, delusional, and other non-mood psychotic disorders.	12 patients	0.75%
F30-F39	Mood (affective) disorders (for example, manic episode; bipolar disorder; depressive episode; major depressive disorder; persistent mood (affective) disorder; and unspecified mood (affective) disorder).	141 patients	8.80%
F40-F48	Anxiety, dissociative, stress-related, somatoform and other nonpsychotic mental disorders (for example, phobic anxiety disorders; other anxiety disorders; obsessive-compulsive disorder; reaction to severe stress, and adjustment disorders; dissociative and conversion disorders; somatoform disorders; and other nonpsychotic mental disorders).	187 patients	11.70%
F50-F59	Behavioral syndromes associated with physiological disturbances and physical factors (for example, eating disorders; sleep disorders; sexual dysfunction; mental and behavioral disorders associated with puerperium; and abuse of non-psychoactive substances).	4 patients	0.25%

Appendix Table 47. Summary of Mental, Behavioral, and Neurodevelopmental Disorders (F01-F99) among patients served by the OhioHealth Physician Group Heart and Vascular in Fiscal Year 2023 (7/1/2022 to 6/30/2023). The OhioHealth Physician Group Heart and Vascular Clinic is located at 1325 Clark Street, Cambridge, Ohio 43725. The Clinic served 1596 unique patients in Fiscal Year 2023.

ICD-10 CM Codes	Description	Count of Patients Served in Fiscal Year 2023	Percent of Patients in Fiscal Year 2023 (N = 1596 unique patients)
F60-F69	Disorders of adult personality and behavior (for example, personality disorders; impulse disorders; gender identity disorders; paraphilias; sexual disorders; and adult personality and behavior disorders).	5 patients	0.31%
F70-F79	Intellectual disabilities (for example, mild, moderate, severe, and profound intellectual disabilities).	6 patients	0.38%
F80-F89	Pervasive and specific developmental disorders (for example, speech disorders; language disorders; scholastic skills disorders; motor function developmental disorders; pervasive developmental disorders; and other disorders of psychological development).	1 patient	0.06%
F90-F98	Behavioral and emotional disorders with onset usually occurring in childhood and adolescence (for example, attention-deficit hyperactivity disorders (ADHD); conduct disorders; emotional disorders; disorders of social functioning; and Tic disorder)	13 patients	0.82%
F99	Unspecified mental disorder.	0 patients	0%

DASU — 4. Continue collaboration with the “Healthy Moms, Healthy Babies” program — the counselor-preventions specialist from Cambridge-Guernsey Health Department links pregnant women or women who delivered within the last 12 months with resources to support the health and safety of mom and baby in various aspects of substance use recovery. The counselor- prevention specialist provides services in Guernsey and Noble counties (Cambridge-Guernsey Health Department, 2022). The counselor- prevention specialist goes to SEORMC Childbirth Center to recruit participants and provide the following services:

- **Trauma informed services** — includes case management and assessment, substance dependency and prevention support, and infant bonding techniques.
- **Education** — includes reproductive health and birth control, neonatal abstinence syndrome, infant Cardiopulmonary Resuscitation (CPR) training assistance, and support with attending medical appointments and court hearings.
- **Referrals** — includes social services, employment, relapse prevention, detox facilities, and Naloxone programs.

OhioHealth Southeastern Medical Center’s Impacts related to “Continuing collaboration with the “Healthy Moms, Healthy Babies” program (DASU – 4).

In Fiscal Year 2023 and 2024, there were 424 and 440 deliveries at the OhioHealth Southeastern Medical Center. As part of the materials and resources, the OhioHealth team includes information about the Cambridge Guernsey County Health Department programs for mothers, babies, and families (Healthy Moms, Healthy Babies, n.d.).

Healthy Moms, Healthy Babies – ensures safety and healthy pregnancy for mother and baby while ensuring families receive care and support throughout their recovery. The Healthy Moms and Healthy Babies links pregnant women or women who have recently delivered in the past year with resources to support the health and safety of the mother and baby during recovery. The goal is to provide confidential environment in which patients can seek education, referrals, and support. Patients are treated with dignity and respect throughout their recover. It promotes resilience while utilizing person first language across our continuum of care for substance use disorders.

The Healthy Moms Healthy Babies provide trauma informed services and education:

- Case management and assessment
- Substance dependency and prevention supports
- Cribs for Kids Program and Safe Sleep
- Infant Bonding techniques
- Reproductive health and birth control
- Neonatal Abstinence Syndrome
- Stages of pregnancy
- Breastfeeding and postpartum challenges
- Infant cardiopulmonary resuscitation (CPR) training assistance
- Infant care items
- Infant massage
- Community presentations
- Support attending medical appointments and court hearings

- Parenting skills
- The staff from Healthy Moms and babies provide information and referral for: (a) treatment; (b) medical care; (c) residential treatment; (d) employment; (e) education; (f) social services; (g) housing; (h) relapse prevention; (i) detox facilities; (j) drug overdose education and Naloxone program; and (k) infant development and learning resources.

Bridges to Wellness – partners with Access Tusc to offer Bridges Wellness, which is a program that connects families to local resources to help them become healthier. The families can access the services of the community care coordinator to address their needs. Women and children are provided the education and support to pregnant women to help promote healthy pregnancies and postpartum period.

Car Seat Program – the Health Department offers the Ohio Buckles Buckeyes Car Seat Program. The child safety seats are purchased by the Ohio Department of Health. The health department's Certified Child Passenger Safety Technician assists patients with child safety seat questions, installation, and checking of safety. The Ohio Buckles Buckeyes Car Seat Program (a) Guernsey County resident; (b) custody of a child between birth to 8 years old and or more than 32 weeks pregnant; (c) eligible for WIC or Medicaid card; (d) WIC income-eligible children may receive one car seat every 3 years if parents or legal guardians register for class or pass the quiz; and (e) willing to complete an Ohio Buckles Buckeyes education session. A parent or guardian is eligible to receive a child restraint system-convertible or booster seat after completion of an online educational session on proper use and installation of the child restraints, as well as Ohio car seat laws. Completion of the online class and an appointment to complete paperwork and receive hands-on assistance completes the program.

Children with Medical Handicaps – a health care program of the Ohio Department of Health that links families of children with special health care needs to a network of quality providers and help families obtain payment for services their child needs. There are three ways by which the Bureau of Children with Medical Handicaps (BCMH) helps Guernsey County residents: (a) diagnostic program; (b) treatment program; and (c) service coordination program. The Children with Medical Handicaps allows eligibility of children with (a) AIDS; (b) cancer; (c) cerebral palsy; (d) cleft lip or palate; (e) cystic fibrosis; (f) congenital heart disease; (g) chronic lung disease; (h) diabetes; (i) hearing loss; (j) hemophilia; (k) juvenile arthritis; (l) metabolic disorders; (m) scoliosis; (n) severe vision disorders; (o) sickle cell disease; and (p) spina bifida.

Cribs for Kids® – has a mission of preventing infant sleep-related deaths by educating parents and caregivers on safe sleep practices for babies and providing portable cribs to families who cannot afford safe place for babies to sleep.

Access to immunizations – the health department provides immunizations following the guidelines of the Centers of Disease Control and Prevention.

In addition to collaborations and support of the Cambridge Guernsey County Health Department's programs for maternal, infant and child health, the OhioHealth Southeastern Medical Center representatives participated in the Guernsey County Board of Developmental Disabilities "Community Baby Shower" that was held on October 13, 2022; May 25, 2023, and April 4, 2024. The Community Baby Shower was aimed at providing empowerment and support to expectant mothers as well as provide them with education about various community resources that provides programs and services that aims to promote maternal, child and family health and wellbeing.

The OhioHealth Southeastern Medical Center's team members also participated in the Noble County Community Baby Shower on May 11, 2023. The baby shower was aimed at providing education on health and wellness of mothers, babies, and their families as well as the awareness of various community resources to support maternal, infant and child health like the Women, Infant and Children (WIC) program.

DASU — 5. Continue the services of a case manager/substance use navigator — The SEORMC case manager/substance use navigator assists patients in the Emergency Department by providing education, referral, and linkages. The substance use navigator also helps patients identify a primary care provider and connecting patients with mental health and addiction agencies including Muskingum Valley Health Center (MVHC), AllWell Behavioral Health Solution, Superior Med, and Medical Associates of Cambridge.

- **Muskingum Valley Health Center** — services include (but not limited to) behavioral Health, addiction Services, and Medication Assisted Treatment (MAT)
- **AllWell Behavioral Health Solutions** — includes (but not limited to) assessment and evaluation, community support and case management, peer support, consultation and education, counseling and therapy, overall prevention and wellness, and Medication-Assisted Treatment (MAT).
- **Superior Med** — services include (but not limited to) primary care services and referral of patients to mental and behavioral health agencies.
- **Medical Associates of Cambridge** — services include (but not limited to) social services and education on community resources regarding substance abuse and addiction.

OhioHealth Southeastern Medical Center Impacts Related to “Continuing the services of a case manager/substance use navigator (DASU – 5)”

Appendix Tables 51 show the number of patients served by the Emergency Department who had diagnoses related to drug abuse and/or substance use. The OhioHealth Southeastern Medical Center team represented by any one of the following least one of the following employees, case manager, substance use navigator, social worker, provided emotional support, engagement, and referral to either the community mental or behavioral health agencies or OhioHealth providers when necessary. Examples of community agencies include (a) Muskingum Valley Health Center; (b) Allwell Behavioral Health Solutions. The OhioHealth care manager, substance use navigator or social worker are knowledgeable about the many contracted agencies of the Muskingum Area Mental Health and Recovery Services Board serving Coshocton, Guernsey, Morgan, Muskingum, Noble, and Perry Counties (Muskingum MHR SB, 2019).

Appendix Table 51. Summary of patients with diagnoses of “Mental and behavioral disorders due to psychoactive substance use (F10-F19)” served by the OhioHealth Southeastern Medical Center in Fiscal Year 2023 (7/1/2022 to 6/30/2023) and Fiscal Year 2024 (7/1/2023 to 6/30/2024). When necessary, these patients were referred to community mental and behavioral health agencies closest to where they live.

Diagnoses	Count of patients served in Fiscal Year 2023 (7/1/2022 to 6/30/2023)	Count of patients served in Fiscal Year 2024 (7/1/2023 to 6/30/2024)
Mental and behavioral disorders due to psychoactive substance use (F10-F19)	62 patients	83 patients

2022 Priority Need 2: Chronic Diseases

CD — 1. Continue chronic disease preventative screenings in collaboration with Guernsey and Noble County employers such as (but not limited to) —

- **Rigid Tool North American Distribution Center** — located at 9877 Brick Church Rd., Cambridge, OH 43725
- **Guernsey County Administration** — located at 627 Wheeling Ave., Cambridge, OH 43725
- **Colgate Palmolive Co** — located at 8800 Guernsey Industrial Blvd., Cambridge, OH 43725
- **Quanex IG Systems** — located at 800 Cochran Ave., Cambridge, OH 43725

OhioHealth Southeastern Medical Center’s Impacts related to “Continuing chronic disease preventative screenings in collaboration with Guernsey and Noble County employers (CD – 1)”

Appendix Table 52 summarizes the services that were provided by the OhioHealth WorkHealth Cambridge.

Appendix Table 53 summarizes the number of patient visits and employers served by the OhioHealth WorkHealth Cambridge.

Appendix Table 54 summarizes the 25 employers that had the highest number of visits/services from the OhioHealth WorkHealth Cambridge. The OhioHealth WorkHealth Cambridge provides area employers with a full-service occupational medicine service line. From injury care to pre-employment physicals, our goal is to partner with employers to ensure health and safety of their employees. We also provide drug screening for area employers in a pre-employment situation or a post-accident situation. Our staff is certified in Department of Transportation drug screen collections and breath alcohol screening. Health and wellness services such as blood draws for glucose and cholesterol and health fairs are offered to area employers. We conduct some onsite services such as ergonomic assessments, job analysis and drug screen collection.

Appendix Table 52. Summary of services provided on behalf of employers served by the OhioHealth WorkHealth Cambridge. The facility is located at 100095 Brick Church Road, Cambridge, Ohio 43725

Category	Description
Bureau of Worker's Compensation (BWC)	Injured worker services
Physical Exam (PE)	General physicals for new hire and annual requirements
Substance Abuse Testing (SAT)	Urine drug screens, hair collections and breath alcohol screening
Vaccine (VAX)	Hep B, Influenza, TDAP, MMR, and TB SCREENING
Onsite Services (OS)	Drug screen collections, job analysis, and ergonomic assessments
Medical Surveillance Visit (SUR)	Audiogram, respirator fit testing, vision screening, and Lift tests

Table 53. Summary of the total number of patient visits and employers served by WorkHealth Cambridge in Fiscal Year 2023 (7/1/2022 to 6/30/2023) and Fiscal Year 2024 (7/1/2023 to 6/30/2024). The facility is located at 100095 Brick Church Road, Cambridge, Ohio 43725.

	Fiscal Year 2023	Fiscal Year 2024
Total visits/services	7795 visits/services	6787 visits/services
Total employers served	573 employers	507 employers

CD— 2. Continue collaboration with the Noble County Wellness Coalition — The Noble County Wellness Coalition is comprised of representatives from the Noble County Health Department, SEORMC, OSU Extension, and various community stakeholders. The Noble County Wellness Coalition aims to promote overall health and wellness of Noble County residents. Examples of community activities include a community walking challenge, hosted a free 5k, presence at various community events, and education related chronic disease.

- **Noble County Health Department** — includes the health educators.
- **OSU Extension** — SNAP-ED (Supplemental Nutrition Assistance Program) Educator and the Family and Consumer Sciences Coordinator.
- **Caldwell Church of Nazarene** — Pastor
- **United Way of Guernsey, Noble, and Monroe Counties**
- **Various Community Members**
- **Noble Local Schools**
- **Caldwell Exempted Schools**

This action (CD— 2) aligns with the State Health Improvement Plan (SHIP).

OhioHealth Southeastern Medical Center’s Impacts related to Continuing collaboration with the Noble County Wellness Coalition (CD – 2)

Representatives from OhioHealth and OhioHealth Southeastern Medical Center participated in various health and wellness activities that were led or supported by the Noble County Wellness Coalition or by the Coalition’s collaborating organizations.

Appendix Table 56 and 57 show the health and wellness activities that the Southeastern Medical Center representatives were involved during Fiscal Years 2023 and 2024.

Appendix Table 56. Summary of OhioHealth Southeastern Medical Center's community participation in Noble County Wellness Coalition during Fiscal Year 2023 (7/1/2022 to 6/30/2023) that supports the goals and objectives of the Noble County Wellness Coalition.

Dates	Community Health and Wellness Activity in Fiscal Year 2023	OhioHealth Representative to the Community Health and Wellness Activity	Number of Persons Served
8/2/2022	Participation and leadership in the National Night Out at the Cambridge City Park Pavilion.	Hannah Bingham	200 persons
8/24/2022	Presented at the Retired Teachers Association on (a) importance of exercise habits; (b) importance of having a primary care physician; (c) importance of blood pressure readings; (d) causes of hypertension; and (e) stress management.	Hannah Bingham; Ashley Sebek, RN and Kaitlin Chorey, RN	9 persons
9/10/2022	Participation and leadership in the Kiwanis Family Fun Day.	Various employees	25 persons
12/19/2022	Diabetes Support Group engagement Christmas Party.	Various employees	11 persons

CD — 3. Continue heart and lung health education —SEORMC provides heart and lung health education during outpatient screenings such as lung cancer Computed Tomography (CT) screenings. Lung health screenings are affordable and available to patients in southeast Ohio counties. Health education is provided to adults ages 50-77, current smokers or one who has quit within the past 15 years, history of smoking a pack a day for the past 20 years, have no history of lung cancer.

OhioHealth Southeastern Medical Center's Impacts related to "Continuing heart and lung health education".

Appendix Table 58 shows OhioHealth patient encounters from Guernsey and Noble Counties who had Emergency Care visits at OhioHealth Emergency Departments, excluding the Southeastern Medical Center Emergency Department. This data is presented to demonstrate that Guernsey and Noble County residents are seeking emergency care from OhioHealth outside their County of residence. At the OhioHealth Emergency Departments, the patients are educated about the pathophysiology of their disease processes and next steps in their medical care. It is noteworthy that the team provides heart and lung education for patients with chief complaints or diagnoses related to the respiratory and cardiovascular systems.

Appendix Table 58. Summary of chief complaints of patients from Ohio's Guernsey and Noble Counties who received emergency care from OhioHealth Emergency Departments outside their place of residence in Fiscal Year 2023 (7/1/2022 to 6/30/2023). Chief complaints of patients may or may not be related to either lung, heart, or vascular disorders.

Chief Complaints of Patients	Count of Emergency Department Encounters	Percent of Emergency Department Encounters (N=127)
Abdominal Pain	12 Emergency Department encounters	9.40%
Back Pain	11 Emergency Department encounters	8.70%
Chest Pain	10 Emergency Department encounters	7.90%
Other	6 Emergency Department encounters	4.70%
Dizziness	5 Emergency Department encounters	3.90%
Emesis	5 Emergency Department encounters	3.90%
Leg Pain	5 Emergency Department encounters	3.90%
Cough	4 Emergency Department encounters	3.10%
Shortness Of Breath	4 Emergency Department encounters	3.10%

Other diseases of the respiratory system (J96-J99)	1 patient	0.07%

2022 Priority Health Need 3: Mental Health (Depression and Anxiety)

MH — 1. Continue collaboration with the Mental Health and Recovery Services Board serving Coshocton, Guernsey, Morgan, Muskingum, Noble and Perry Counties — SEORMC will continue engagement and partnership with the Mental Health and Recovery Services Board to determine how best to address the mental health needs of Guernsey and Noble County residents.

MH 1.1. Learning more about the critical incident stress-management team— including Critical Incident Stress-Management provides confidential services at no charge, such as pre- stress education, peer support, crisis management, defusing, debriefing, follow-up, and referral (Muskingum MHRSB, 2019).

This action (MH — 1) aligns with the State Health Improvement Plan (SHIP).

OhioHealth Southeastern Medical Center’s Impacts related to “Continuing collaboration with the Mental Health and Recovery Services Board serving Coshocton, Guernsey, Morgan, Muskingum, Noble and Perry Counties (MH – 1)

OhioHealth Southeastern Medical Center’s Care Management Team (care manager, social worker) are very familiar with the various programs and services of the Mental Health and Recovery Services Board serving Coshocton, Guernsey, Morgan, Muskingum, Noble, and Perry Counties (Mental Health and Recovery Services Board, 2019).
