OhioHealth Employer Solutions helps employers of all sizes meet their associates' healthcare needs with customized, proactive healthcare solutions and a single, convenient OhioHealth contact for assistance.

Programs and Services

WELLNESS SERVICES

Wellness Services partners with employers to offer complete health risk assessments and biometric screenings that address health concerns common to a working population. Wellness programs are customized for the employer to fit their employees' health needs.

OHIOHEALTH EMERGENCY SERVICES

OhioHealth trauma services and centers are among the best in the state, staffed by highly trained trauma healthcare professionals from a wide range of medical specialties. Emergency services are available 24/7 at OhioHealth Marion General Hospital.

OHIOHEALTH URGENT CARE

OhioHealth Urgent Care offers immediate medical care for non-life threatening illnesses and injuries in the Marion area — open 9 a.m. to 9 p.m., 7 days a week.

ON-SITE SERVICES

On-site Services are available to employers right at the workplace. Our on-site clinicians can provide occupational illness and injury care, deliver basic urgent care services to both your employees and their dependents and support workplace wellness initiatives.

PRIMARY CARE PHYSICIAN ACCESS

One of the most important healthcare resources employers can provide to their associates is access to primary care physicians. Developing a relationship with a primary care physician is the first step in achieving your best health. Yearly preventive checkups with a primary care physician can include early detection screenings that help employees manage wellness and disease prevention.
